

## Welcome Note

Dear Valued Parents/Guardians,

Welcome to our Term 2 newsletter! Term 2 was a busy and productive time for our children. They, together with their teachers, had many fun and enriching experiences, especially during May and June when we had events such as Disposition Day, trips and project work. Thank you for your kind support as we work towards nurturing our children to achieve greater heights! We look forward to your continued support as always.

Do let us know if you have any concerns and feedback on our programme. You may email us at [pasir\\_ris.chc@kidzmeadow.com](mailto:pasir_ris.chc@kidzmeadow.com)

Regards  
Mdm Jumira

## Table of Contents

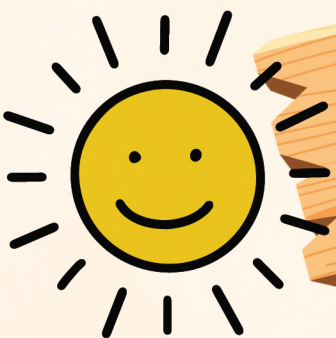

- Nature Activities
- Ramadan Iftar Pack
- Hari Raya Awareness Day
- Career Dress-up Day
- Visit to the library
- Start Small Dream Big (SSDB Launch):  
NTUC Health Nursing Home
- KidZania Trip
- Fire Station Trip
- Term 2 Disposition Day
- Parents' Day
- Mother Tongue Language
- Class Activities
- Parental Tips
- PMVV

## Closure Dates

- 4 September:  
Staff Retreat
- 5 September:  
Teachers' Day

## NATURE MAGNIFIED LAUNCH

The children explored ecosystems and developed an understanding of how living things interact and depend on one another in nature.

Through their exploration, the children gained insights into the complex relationships and interdependence between plants, animals and their environment.

## OUR NATURE ACTIVITIES I CAN SPY! NATURE

The children discovered so many interesting things about leaves! Participating in an exciting leaf race led the children to observe how leaves move in the wind. Through their exploration of different leaves, the children discovered their different textures and sizes, and also learnt that dry leaves can produce sounds.

## Family Iftar pack distribution

In conjunction with the blessed month of Ramadan, KMPR teachers and staff came up with an initiative to provide families with an iftar gift pack each. All teachers and staff consolidated funds and came together to prepare the packs.

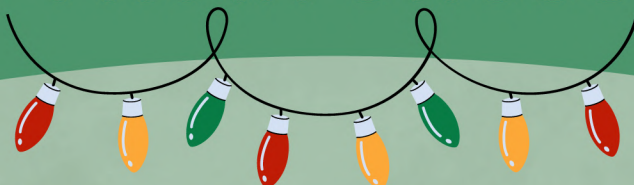

Our K1 and K2 children also assisted in packing fruits and cakes, with our K2 children helping further with the distribution of the iftar packs.

## Hari Raya Awareness

Our school felt like home on Friday, 4 April, when we saw that the spirit of Raya truly shines brighter when shared!

A heartfelt thank you to all our amazing parents who joined us for a joyful Hari Raya celebration. It was definitely a celebration to remember!

## Career Dress-Up Day

Kidz Meadow @ Pasir Ris had our annual Career Dress-Up Day for the Bloom children on Monday, 21 April. Dressed in their chosen career outfits, the children had a show & tell as well as a dramatisation session. It was a fun and insightful day where we saw a range of careers in action!

## Visit to the library

In conjunction with our theme on 'Neighbourhood & Community Helpers', the Bloom children went on a trip to Pasir Ris Public Library at White Sands Shopping Centre, where we also hope to instill a love for reading in the children.

While there, the children were introduced to the librarians, the various function rooms, and different genres of books available. We also had individual class storytelling sessions at the library.

For this year's launch of Start Small Dream Big (SSDB), children participated in Earth Hour and created posters that focused on how to save the Earth such as recycling and switching off electricity when not in use.

These posters serve as a reminder to saving Gaia. Children also performed the song 'Save My World' and presented the posters to the residents of NTUC Health Nursing Home (Pasir Ris).

## Community Collaboration

Our K1 and K2 children had an exciting time at KidZania, exploring the world of community helpers! They took on different roles such as firefighters, chefs and scientists, and even received salaries for completing their jobs!

## Trip to KidZania

## Trip to Fire Station

Our Nursery 2 children had an eventful Saturday morning with their parents during our trip to Punggol Fire Station.

In line with our Term 2 theme on Community Helpers, the children were in high spirits as they explored the emergency vehicles, and pretended to be firefighters as they attempted to use the water hose. This trip was also a wonderful opportunity for the children to forge closer bonds with their parents.

## Disposition Day

The children delved into the importance of working with one another. They took part in activities that required them to work together to complete tasks such as cup stacking, a scavenger hunt, an escape room activity and an obstacle course.

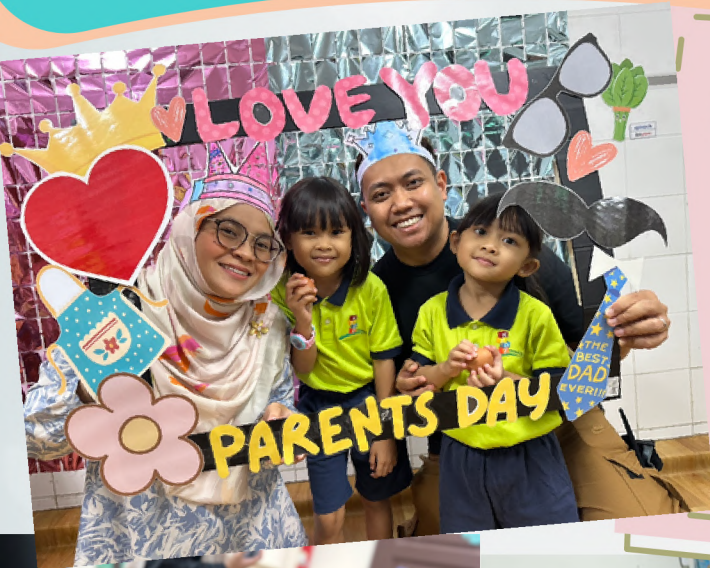

The children definitely had a great time working with one another and, more importantly, saw how "alone, we can do so little; together we can do so much."

## Parents' Day

It was the best day ever to spend with mum and dad! The children sang about their love and appreciation towards their parents, and also presented a lovely pair of handmade crown and tiara to them.

As part of their bonding activity, parents showed off their talents in creating yummy-looking sandwiches with their little ones.

## Projek Bahasa Melayu

Topik projek untuk bulan Jun ialah konsep 3R, iaitu Kurangkan, Guna Semula dan Kitar Semula. Murid-murid dari kelas Asuhan, Tajaka 1 dan 2 serta Tadika 1 dan 2 telah mempelajari tentang bahan-bahan yang boleh dikitar semula, termasuk warna dan jenis tong kitar semula. Mereka turut digalakkan untuk menggunakan bahan terpakai dalam menghasilkan pelbagai rekaan kreatif.

## Toddler

The toddlers learnt about **recycled materials** through a variety of activities. They painted boxes meant for recyclables, matched the different coloured recycling logos, and even pretended to be recycling trucks that sorted recyclables. Way to go Toddlers! Let's keep learning on how to be eco-friendly!

## Nursery 1

### Nursery 1 Recycle Project 🌱♻️

Our little ones explored the importance of recycling through hands-on fun! They made collages, flowers from bread tags, and crafted their own Recycle Heroes and Recycle Trucks. They also brought recyclables from home and helped place them in the bins outside our school. A meaningful project to nurture eco-friendly habits early!

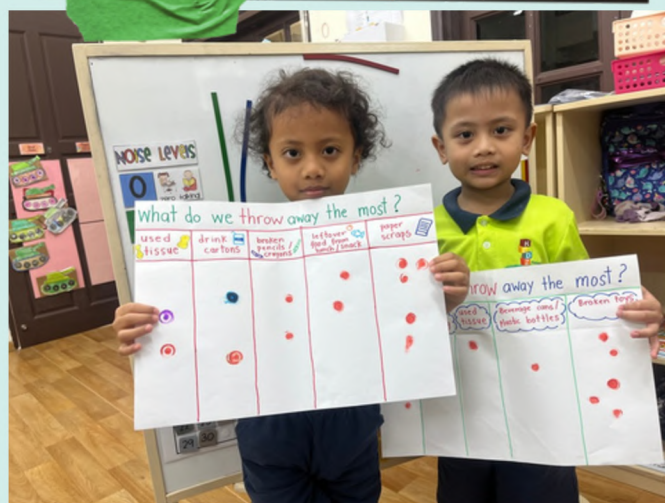

## Nursery 2

During our Term 2 **D.E.E.P Project**, N2 children delved into the topic of "Saving the Earth" where they focused on the 3Rs: Reduce, Reuse & Recycle. The children discussed different ways in practising the 3Rs and translating them into action such as bringing their own lunchboxes, reducing water usage, playing bowling using recycled bottles and sharing different items that they can reuse/reduce. They also created a small corner in their classroom for their recyclable Tetra Pak cartons!

## 1. Craft: Trash No More

The children created a meaningful craft using recycled materials which featured their own photo holding up the planet proudly.

## 2. Graph Activity: What do we throw away the most?

We gathered data and created graphs to find out the type of items we throw away the most at home and in school.

## 3. Group Work: Recycling Process

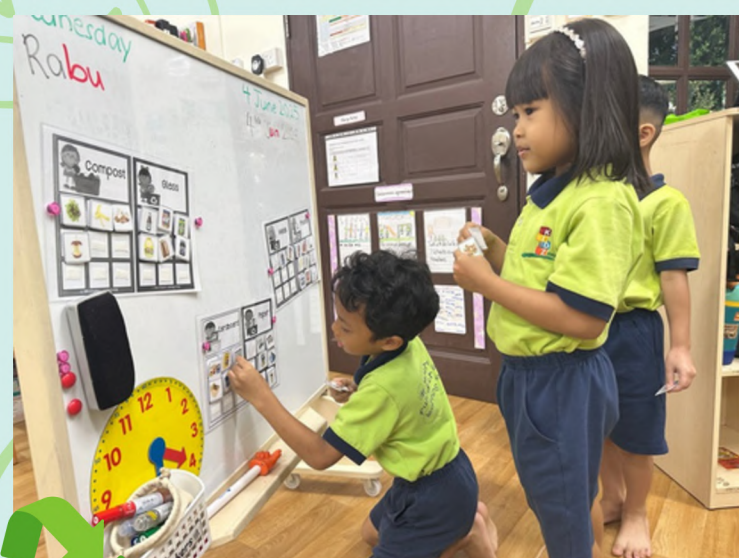

In groups, the children drew and presented the recycling journey - showing how rubbish can become something new!

## 4. What is rubbish?

The children sorted everyday items into "trash" and "recyclable" to learn what can be given a new life and what truly belongs in the bin.

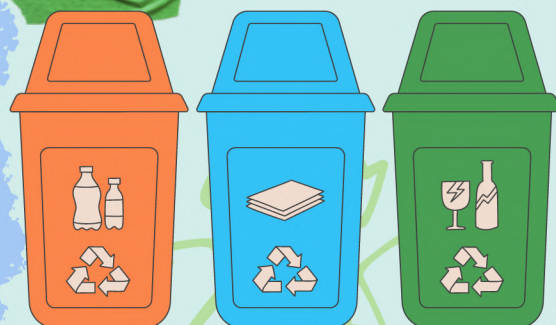

## K2

The K2 children took part in a series of engaging activities centred around recycling and the use of recyclable materials. As a class, they brainstormed what they already knew about the 3Rs and shared ideas on how to care for the Earth. To reinforce their understanding of graphs, they used recyclable items to create visual representations, and practised sorting different materials into categories. One of the highlights was an exciting outdoor game called 'Bin Tag', where the children had to dash to the correct recycling bin before getting tagged by a friend. Recycling is so much fun!

## Raising A Reader

### Read aloud daily:

Make reading a regular part of your routine, even if it's just for a few minutes each day.

### Extending Learning Beyond the Book:

#### Talk about the story:

Discuss the characters, plot, and what they liked or didn't like about the story.

#### Visit the library:

Introduce them to the library and encourage them to participate in story time programs.

### Making Reading Fun and Engaging:

#### Use different voices and expressions:

Bring the characters to life with different voices and inflections.

#### Connect to their lives:

Relate the stories to their own experiences and ask questions that encourage them to think about the story.

I LOVE READING

#### Act out the story:

Use props or puppets to make the story more engaging and interactive.

#### Let them choose:

Allow your child to choose the books they want to read, even if it's the same one over and over again.

## Vision

A First - Class Provider in  
Early Childhood Care &  
Education

## Core Values

- C - Community and Parental Involvement
- A - Active Learners
- R - Resourcefulness
- E - Excellence

## Philosophy

We believe in providing an engaging and positive environment for the children to develop their potential to the fullest in all aspects of development.

## Mission

Provide a quality and innovative programme that nurtures children to be socially responsible citizens, active learners and thinkers.
