

Principal's Message

Greetings Kidz Meadow Woodlands Families,

Term 3 has passed, and what an eventful and enriching journey it has been for our children!

From the Charity Bazaar and the NW Sports Carnival, to special experiences such as Disposition Day, Superkinder Camp and our combined National Day and Parents' Day, the children have truly enjoyed a wide spectrum of learning beyond the classroom. These events not only created wonderful memories, but also strengthened the values of teamwork, resilience and appreciation of our community.

Alongside these celebrations, our children continued their daily explorations in class, engaging in hands-on experiences that foster creativity, critical thinking and a love for learning. It is heartening to see them grow in confidence and independence, taking small but meaningful steps in their development.

We also deeply appreciate the strong support from our parents. Your presence at events, encouragement at home and trust in us as educators are vital in your child's growth.

As we move into Term 4, we look forward to more meaningful engagements, celebrations, and milestones with our children and families. Let us continue to work hand in hand to guide our children in their journey of learning and discovery.

Warm regards,

Mdm Suhailah Mohd Salleh

Closure Dates

20 October: Deepavali (PH)

24 October: Curriculum Planning Day (CC)

21 November: Spring Cleaning (CC)

25 December: Christmas (PH)

'Start Small Dream Big' Charity Bazaar

As part of our Start Small Dream Big (SSDB) initiative, the children had an exciting opportunity to host a charity bazaar! They proudly sold old-school snacks and crafts created during the June D.E.E.P Project.

The event was made even more special with our community partners – seniors from Orange Valley Active Ageing Centre – joining in the fun. Together, children and seniors connected, shared stories, and enjoyed the vibrant atmosphere of giving back to the community. It was a meaningful and joyful day where children learnt the value of empathy, teamwork, and community spirit!

Racial Harmony Day

Dressed in colourful traditional costumes, the centre was filled with the spirit of unity. The little ones also enjoyed fun craft activities inspired by different cultures, making the day both meaningful and exciting. It was a joyful reminder that our diversity makes us stronger – and so much more colourful!

Superkinder Camp

Our K1 and K2 children from across all Kidz Meadow centres came together for the exciting Superkinder Camp! The little campers had a wonderful time decorating their own tents, flying kites, and learning the importance of teamwork through fun cooperative games. One of the highlights was their lively cheer performance, where the children showcased their energy, spirit, and unity. The camp was filled with laughter, friendship, and memorable moments – a true celebration of learning and togetherness!

Warisan Budaya

Semasa pembelajaran Warisan Budaya di Penggal 3, murid-murid berpeluang melibatkan diri dalam pelbagai aktiviti kraftangan yang menyeronokkan. Antara hasil karya mereka termasuk tikar mengkuang, rumah kampung, rehal, dan juga keris. Melalui aktiviti-aktiviti ini, murid-murid dapat memahami kegunaan dan makna setiap objek dalam kehidupan masyarakat Melayu pada masa dahulu.

Wenhua Yichan

青花瓷是中国传统瓷器之一。通过不同的活动，帮助幼儿初步认识和了解青花瓷的独特元素，激发他们对传统文化的兴趣

Blue and white porcelain is one of China's traditional ceramics. Through various activities, the children were introduced to its unique elements, sparking their interest in traditional culture.

National Day cum Parents' Day

Our celebration was filled with much joy and pride! The children reenacted the NDP Marching Contingent, dressed in themed costumes that lit up the stage. Families joined in the fun too – making flag toast, drawing parent portraits, and playing games together. It was a heartwarming day of family, creativity, and national spirit! ❤️

Disposition Day

Disposition Day was celebrated with the theme 'Honesty Begins with Me'. Through stories, role-play, and discussions, the children explored what honesty means in their daily lives, and learnt that honesty is not just about telling the truth, but also about doing the right thing even when no one is watching. It was a meaningful day that encouraged them to practise this important value in their everyday actions!

Learning Journey to Gardens by The Bay

Our Bloom classes embarked on an exciting learning journey to Gardens by the Bay! Through the engaging program 'Chew on It', they discovered more about edible plants – how they grow, their uses, and why they are important in our daily lives.

The hands-on experience sparked the children's curiosity and helped them appreciate the wonders of nature and the food we eat. It was truly a fun-filled day of exploration and learning!

Toddler A

The children used paint to create their own colourful race car tracks on bubble wrap, turning it into a vibrant, textured roadway!

This fun art activity was a wonderful blend of creativity and sensory play. As they explored colours, patterns, and the bumpy texture of the bubble wrap, the children were not only expressing themselves artistically but also preparing an exciting track for their toy car races. Great job, Toddler A!

Toddler B

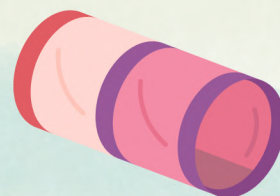

The children enjoyed an active and fun way of learning about transportation! As the teacher called out a type of a vehicle, the children eagerly listened and quickly hopped into the correct hula hoop that matched the mode of transport. This game not only supported their listening and memory skills, but also encouraged physical activity and quick thinking.

Well done, little learners!

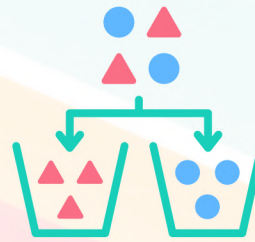

The children enhanced their gross motor skills by crawling through a play tunnel. They also demonstrated patience and turn-taking as they waited for their turn, showing great progress in both physical development and social skills. This activity encouraged confidence and independence as they navigated the play tunnel on their own.

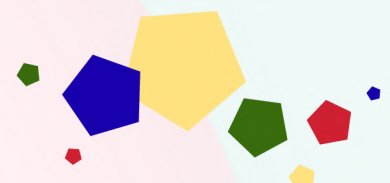

N1 A

The children embarked on a colourful treasure hunt where they had to search for red, blue, yellow, and green items. Once they found the coloured items, they grouped them according to their colours – very much like giving each colour a big hug with its colour friends! It was a simple and joyful way to explore colours for the children, encouraging them to keep their eyes open for splashes of colour around them, and seeing if they could match what they found with their colour families. They discovered that when all the colours get together, it was like a rainbow reunion – full of fun, learning, and a little magic!

N1 B

"The wheels on the bus go round and round!" 🚌🎵

Our little ones had such fun pretending to be bus drivers – walking along the lines which stood for roads, and using hula hoops as their steering wheels. Their cheerful smiles and laughter filled the room as they engaged in imaginative role-play, building social skills and creativity while exploring the concept of transportation!

Through singing, movement, and pretend play, the children built on their language skills and understanding of how vehicles work in the real world. What a joyful journey it was – full of learning, laughter, and lots of "vroom vroom" fun! Great driving, everyone!

N2 A

The children were immersed in two exciting painting activities that sparked their creativity and fine motor development. In one activity, they used paintbrushes with a proper grip to paint the top half of their cups red, proudly creating their own Singapore flags in celebration of National Day.

In another, they explored a different painting technique – using recycled cardboard pieces instead of brushes! With great enthusiasm, the children painted colourful HDB flats, expressing their ideas using their favourite colours. It was a joyful experience that encouraged both artistic expression and exploration of different tools and materials.

The N2s had a wonderful time engaging their senses as they explored the process of making roti prata. They used their senses of sight, touch, and smell while handling the dough – feeling its texture, observing its shape, and noticing the delightful aroma as it cooked. They also watched in awe as the prata was pan-fried to golden perfection.

And of course, they proudly posed with their creations – just look at those happy faces and delicious pratas!

N2 B

Our young scientists took part in a fun and engaging activity as they explored how objects can move without being touched. Using hand fans, the children experimented with moving leaves across a surface by creating wind. Each child had a chance to fan and observe how the leaves responded to the air flow, sparking curiosity and laughter as they watched nature in motion. This simple yet exciting experiment introduced the concept of force and motion, helping children understand that wind, even from a hand fan, can be a powerful force!

K1 A

The children explored cause and effect through a fun and engaging domino activity. They carefully set up domino lines and observed how a single push could trigger a chain reaction, helping them understand how one action can lead to a series of outcomes. It was a hands-on way to bring science concepts to life!

In addition to exploring cause and effect with dominoes, the children also got creative with simple machines! Using recyclable materials, they designed and built their own pulleys. Through hands-on experimentation, they tested how the pulleys work and discovered how these simple machines can make lifting objects easier.

In numeracy, the children learnt about number pairs (number bonds) and practised combining numbers to make a whole. They engaged in hands-on counting activities, using objects and visual aids to ensure they fully understood how different pairs add up to the target number. It was a fun and interactive way to strengthen their numeracy skills!

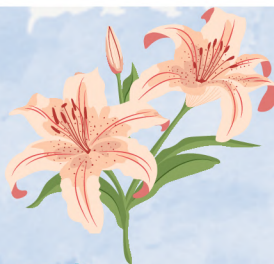

The children explored the concept of rhythm through a fun and interactive activity. While one group marched to the beat of the music, the other tapped rhythm sticks to keep the tempo steady. Then, they swapped roles. This activity not only supported the children's understanding of rhythm, but also encouraged coordination, listening skills, and cooperative play.

K2

As part of their Nature Magnified lesson on the cultural uses of flowers, the K2 children had a hands-on experience making 'bunga rampai', a traditional Malay scented flower mixture. The children were highly engaged throughout the activity, taking turns to explore the mixture using their senses.

They were particularly fascinated by the scent, sharing that it reminded them of green tea. This sparked meaningful conversations as some children recalled seeing 'bunga rampai' being used in Malay weddings, demonstrating their ability to make connections between the classroom activity and real-life cultural experiences.

To create their own 'bunga rampai', the children added essential oil to a mix of flower petals and then carefully scooped some into a doily paper cone. They thoroughly enjoyed the process, not only for the sensory experience but also because it gave them the opportunity to learn more about Malay culture and discover how flowers are used in different ways across cultures. This meaningful activity nurtured cultural appreciation, curiosity, and sensory exploration all at once!

Importance of Family Bonding: Nurturing Children for Life

Family is where everything starts. It is the pillar for children's growth and will serve as a foundation for their future. From infancy to the pivotal teenage years, the family's role in these ranges contribute to shaping a child's character, values, and resilience.

Benefits of Strong Family Bonds

- Communication and Social Development
- Resilience and Life Skills
- Impact on Academic and Behavioral Development
- Improved Emotional Well-Being
- Blueprint for Future Relationships

Making Family Time a Habit

- Schedule regular family meals
- Plan family activities
- Show love and affection
- Put away the screens
