

CONTAMINATION IN C&D WASTE STREAMS

WILL HANCOCK SHERBROOKE OEM

BUSINESS DEVELOPMENT

EVERY DAY 16,000 TONS OF C&D IS LANDFILLED IN THE UNITED STATES, EVERY DAY QUALIFIED MRFS DIVERT OVER 1.3 MILLION COMMODITIES IN THE WASTE STREAMS.

DIVERTED MATERIALS

Clean Wood

Non Ferrous

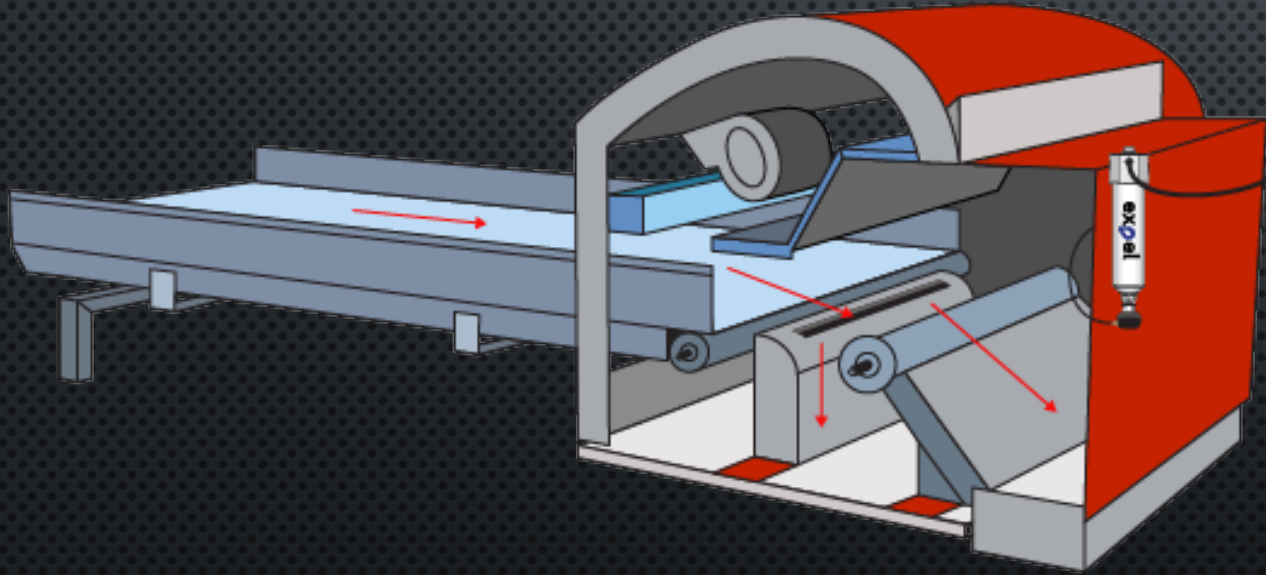

CONTAMINATION AT THE MRFS HAVE
INCREASED IN YEARS AS MORE FRANCHISE
"JUNK" REMOVAL COMPANIES GO INTO
BUSINESS

THE LARGEST THREAT TO LARGE SCALE
RECYCLING FACILITIES TODAY ARE LITHIUM-ION
BATTERIES.

TECHNOLOGIES THAT ARE HELPING AUTOMATE AND REMOVE CONTAMINATION ARE BEING IMPLEMENTED AS THE LANDSCAPE OF RECYCLING CHANGES

EDUCATION
NEEDS TO BE
FOCUSED ON
TO HELP
ALLEVIATE THE
BURDEN ON
MATERIAL
RECOVERY
FACILITIES

Outreach programs

School tours

Legislation

End market development

Life cycle analysis

Government Grants and private Equity support
