

The EZ sump from Bravo gives you a completely assembled and factory tested UDC. Manufactured using Bravo's UL2447 listed UDC's and only high-quality interior components, the EZ sump eliminates the need to do any field assembly within the confines of the sump. Simply set the sump and attach the product piping from the exterior of the entry fitting. It's that EZ!

Features & Benefits

- Fully assembled with all interior components
- Hydrostatically tested at the factory
- Primary connections factory tested at 50 psi
- UL2447 listed Bravo sump with industry leading corrosion warranty
- Stainless steel flex assemblies
- Utilizes Bravo F-Series bonded FRP entry fittings
- Electrical offsets on both ends of the UDC
- For 2" LCX or 3x2 FRP piping
- No need to work inside the UDC
- Simplified installation

INNOVATIVE SOLUTIONS FOR SECONDARY CONTAINMENT
