

# Commercial Metal Roof & Siding Specialist

- **Company:** Kruger Roofing
  - **Location:** Grand Junction, CO
  - **Pay Rate:** \$28.00 – \$30.00 / Hour
  - **Experience Required:** 5+ Years in Commercial Roofing/Siding
- 

## Job Summary

Kruger Roofing is looking for a skilled **Commercial Metal Roof & Siding Specialist** to join our installation team. We are seeking a professional who takes their craft seriously and understands the technical demands of large-scale commercial projects. In this role, you will be responsible for the precise installation of metal roofing and siding systems, ensuring that every project is completed to a high standard of durability and workmanship. If you have a solid background in commercial metal systems and are looking for a stable, professional crew, we want to talk to you.

---

## Key Responsibilities

### Installation & Technical Execution

- **System Installation:** Install standing seam, R-panel, and ACM siding systems according to manufacturer specifications and project blueprints.
- **Flashing & Trim:** Fabricate and install flashing, valleys, and drip edges with precision to ensure a weather-tight finish.
- **Component Precision:** Measure, cut, add layout and fit panels accurately, ensuring clean alignments and professional-grade seams.
- **Building Envelope:** Install underlayment, insulation, and vapor barriers, ensuring all systems are integrated correctly.

### Site Standards & Safety

- **Project Accuracy:** Interpret architectural drawings and installation plans to ensure work is completed correctly and efficiently.
- **Safety First:** Maintain a clean, safe job site. Must be comfortable working at heights and following established fall-protection protocols.

## LANDMARK STAFFING

- **Operational Readiness:** Safely operate and maintain specialized tools, including power shears, brakes, and seamers.
  - **Teamwork:** Work collaboratively with the crew to meet project timelines while maintaining our standard of work.
- 

### Required Qualifications

- **Experience:** Minimum **5 years of verifiable experience** in commercial metal roofing and siding.
- **Technical Proficiency:** A proven ability to read blueprints and manage complex flashing details.
- **Reliability:** Strong work ethic with a commitment to showing up on time and working productively throughout the shift.
- **Physical Capability:** Ability to lift 75+ lbs, work in varied weather, and perform tasks at significant heights.
- **Tool Proficiency:** Owns a standard set of professional hand tools.
