

PUBLIC INPUT NOTICE

Proposed Site for HIRTA's Boone Maintenance Facility

HIRTA is the only public transit system in Iowa without a facility of our own. That makes it harder to maintain our fleet, support our staff, and keep service reliable. Right now, we pay full commercial rates for maintenance, which is a big strain on our limited rural funding. To fix this, we're planning to build a centrally located facility that will improve operations and help us grow sustainably.

The new facility will sit on a 3-acre site and includes indoor space to park transit vehicles, perform light vehicle maintenance, and provide driver facilities.

As part of this project, and to meet federal requirements, we've done a Title VI equity analysis to make sure the site was chosen fairly. You can view the Draft Equity Analysis at www.RideHIRTA.com/facility.

Written comments must be submitted by Wednesday, November 26th and may be submitted by mail or email to:

2824 104th Street

Urbandale, IA 50322

Email: info@ridehirta.com

Public Hearing:

A Public Hearing will be held where the HIRTA Board of Directors will consider the proposed facility and all public input received.

Date: December 4, 2025

Time: 9am

Location: Find Zoom information available at www.RideHIRTA.com/board

All HIRTA Board meetings are open to the public, including individuals with disabilities. If you need a reasonable accommodation to participate, please contact HIRTA at least two business days in advance of the meeting.
