Truth in Love Apologetics Conference
Practical SHINING AS LIGHTS IN A SECULAR AGE

We will explore the rise of secular ideas in our schools, workplaces, and institutions. Our conference teaching will explain the conditions that led to secularism and how we can faithfully live out the Biblical alternative. This secularism has major consequences, and the conference will help us contemplate how a Christian should navigate, engage, and respond with truth, love, and respect. The conference concludes with Biblical direction on key virtues needed to live as bright Christian lights in a world attempting to establish morality without God.
