

TO: Parents and Staff

FROM: Julie Fantone Pritzel, Principal

DATE: August 2026

In compliance with the Federal Asbestos Hazard Emergency Response Act (AHERA), we are in year 2 of our 3 year cycle for our 3 year inspection of our school building for asbestos-containing building materials. The inspection findings and asbestos management plans are on file in the principal's office.

The Federal Asbestos Hazard Emergency Response Act (AHERA) requires us to perform re-inspections of asbestos materials every three years. An accredited asbestos inspector, under contract with the Diocese of Lansing, performed the most recent inspection and informed our school that we have met their recommendations and that our building is safe.

The results of the re-inspection, and all subsequent re-inspections, are on file in the principal's office. Everyone is welcome to view these at any time during normal business hours upon appointment.
