

MERCHANT SOLUTIONS CONVERSATION STARTER

Providing our customers the ability to accept credit and debit card payments

New Accounts:

- We appreciate you trusting us with your new account, would it make sense to also trust us with your credit card processing?
- Many people think that accepting cards is too expensive to start with. What if we could provide that service and allow you to eliminate nearly all payment expense?
- Can you take payments directly from your Facebook or Instagram page? Would you like to be able to?
- If we told you that we could increase engagement with current customers and bring new customers, would that be helpful?

Existing Accounts:

- Are you satisfied with what you are paying to accept credit cards?
- What if we could show you how to eliminate 90% of your merchant fees? Would you be interested in a free review of your account?
- Would you like a free business review to make sure you are not paying too much on your merchant account?
- How long have you had your current equipment? Does it allow you to offer a dual price or pass the fee saving you money on your processing?
- Have you ever had a complete Digital Audit of your online presence to see if folks will find you instead of your competitor when they are looking for your service? As a bank customer our specialist can provide this to you for free.
