## ELIMINATE EXPENSE TO MAXIMIZE PROFIT WITH BUYER'S CHOICE

Buyer's Choice allows you to offer a dual price at checkout by automatically configuring a cash price and a card price with payment fees built in.

## HOW DOES IT WORK?

### \$100 TICKET

When the customer is ready to purchase, two prices are offered at checkout, giving the option of a cash price or a card price with processing costs included. The receipt reflects the price and payment method the customer chooses at check out.

**CASH PRICE: \$100**  
**CARD PRICE: \$104**
