

EvolvPay800

The Ultimate All-in-One POS Solution

The future is here with the all-in-one point-of-sale solution, the EvolvPay800. The dual touchscreens make it easy to speed up transactions and improve the customer experience. This powerful payment device is ready for all types of business environments.

The benefits of a future-proof POS terminal

- ▶ **Prioritizing customer security with dual touchscreens**
With a dual-display setup, including an 8" user-facing screen and a 5" customer-facing display, the EvolvPay800 fosters transparency and engagement during transactions, increasing customer trust and satisfaction.
- ▶ **Exploring endless payment possibilities**
The EvolvPay800 offers effective ways to perform cash transactions with advanced hardware built-in contactless card readers. Choosing your mode of payment with QR code, e-wallet, tap, tip, and swipe optimizes trouble-free transaction processing. Pairing with an extended communications hub ensures efficiency in demanding retail businesses.
- ▶ **Vertical chip card slot for merchants and customers**
The EvolvPay800 utilizes a chip card slot for debit and credit card transactions. Displaying payment processing information on the customer's screen makes transactions transparent and reliable for customers.
- ▶ **Durability and reliability**
Designed to withstand the rigors of high-traffic environments, the EvolvPay800 ensures continuous operation without compromising performance, keeping your business running smoothly. Its processing power and long-lasting battery minimize power usage without sacrificing performance.
