

WELCOME TO LAB MINI MARKETS

We provide businesses with full-service mini market amenities at no cost. We handle everything—you earn passive income while your employees and customers enjoy added convenience.

How It Works:

LAB Vending

- Provides and installs the mini market machines
- Stocks products and manages inventory
- Handles all service, maintenance, and cleaning
- Covers all costs, including repairs and insurance

You

- Offer a visible, high-traffic space
- Gain a convenient amenity for employees and customers
- Boost satisfaction and on-site convenience
- Receive automatic monthly profit-share payments

OUR MINI MARKETS

Whether you prefer drinks, snacks, or a mix of both, our mini markets deliver a sleek, modern upgrade to traditional vending machines.

Customers use the touchscreen to tap/swipe a credit or debit card to unlock the glass door, grab what they want, and walk away. AI-powered cameras and sensors automatically track every item taken and charge the customer accurately—fast, cashless, and convenient.

A modern, seamless experience that's easier, smarter, and more convenient than traditional vending.

LAB VENDING
FAMILY-OWNED AMENITIES

COMMON QUESTIONS:

How much space does a machine take up?

Our machines typically require just 3ft x 3ft of floor space. We simply ask for a small, visible area where people naturally pass by—so everyone at your location can enjoy the convenience.

How does the profit-share work?

It's easy and transparent. We track all sales, subtract the cost of products, and share 10% of the net profits with you. Your earnings are delivered automatically each month—no effort required.

What do we need to do?

Nothing. We handle installation, restocking, maintenance, customer support, and cleaning. We also carry insurances on all of our machines, so your business is fully protected.

Is there a catch?

Nope—our model is straightforward: You provide a high-traffic location, we provide mini market machines and full service.
