Excellent work on a siding repair due to water damage. They came out to evaluate, worked to find some of my discontinued siding, and gave a clear/reasonable estimate for repairs.

They dropped off the materials the evening prior and then showed up at 7:30am. They made quick work of the repairs in just a few hours and that meant pulling off half of a second story wall siding, cutting out bad OSB, patching in new OSB, adding house wrap, flashing the window, and replacing with new matching siding and J channel. The guys were professional and cleaned up their mess very well.

I already have a request in for more work from these guys. Honest work at a fair price.

AND they show up at the scheduled times! (Which is sadly hard to find right now from most businesses.)

We used Russell Exterior for our roof replacement and we have been very pleased. For the start they have been very helpful. Tori was the first contact we had and she was great to help and respond to any and all of my questions or concerns. Jeff showed up to met with our adjuster and brought us samples to look at and kept us up to date on the work being done. They did a great job and it looks great. I highly recommend them if you need any roof work done!!!

I sent a request through a Facebook town page asking for who to get to install a roof and many responded by saying Russell Exterior was really good, they were mention more than the others. We called them, and the others, to get a free estimate and we went with Russel because they were more detailed and seem more knowledgeable of what we needed and not needed. They were very professional and did a wonderful job with our roof. Our roof looks better then it ever has and it will last longer than our original roof did. I highly recommend them.

They put siding on the back of our house to blend in with old existing aluminum siding. They also wrapped the old aluminum window trim with new. The whole job looks great. We highly recommend!

Jesse was great to work with. Always on time answers his phone when you reach out and went above and beyond to make my experience with my wind damaged roof as painless as I could be. I am a local real estate agent and I will always recommend Jesse from here on out!
