OUTER BURIAL CONTAINER PRICE LIST

Prices effective November 1, 2025 and subject to change without notice

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements.

CASKET BURIAL

OUTER BURIAL CONTAINER INFORMATION

What is an Outer Burial Container? The Outer Burial Container, which can either be a grave liner or vault, is designed to maintain the integrity of the cemetery grounds by creating an outer enclosure around the casket. While not required by any law, almost all cemeteries require them as a condition of burial on their grounds.

Some cemeteries sell their own grave liners and provide their own graveside setup as part of their charges. Other cemeteries are not equipped to do so and defer the responsibility of selling the outer enclosure and setup of the graveside to the funeral home. We have partnered with Wilbert, the leading national supplier of burial vaults, to offer quality products and graveside setups to the families we serve. The outer burial containers available for your family to select are included below and many come with unique personalization options to make the graveside service memorable and special.

URN VAULT INFORMATION

What is an Urn Vault? An urn vault serves a similar purpose to that of an outer burial container used for casketed burial - that is to maintain the integrity of the cemetery grounds by creating an outer enclosure around the urn. While not required by any law, some cemeteries require an outer enclosure for in-ground urn placement.

Some cemeteries sell their own urn liners and provide their own graveside setups. Other cemeteries are not equipped to do so and defer the responsibility of selling the outer enclosure and setup of the graveside to the funeral home.

Bronze Triune Urn Vault ... \$1,495

*Double Reinforced Concrete with Bronze lining over high impact ABS;
Full customization*

Stainless Steel Triune Urn Vault ... \$1,295

*Double Reinforced Concrete with Stainless Steel lining over high impact
ABS; Full customization*

Venetian ... \$995

*Single Reinforced Concrete with High Impact ABS Lining
Full customization*

Universal ... \$795

*Mold Injected High Impact Plastic with Mastic Seal
No Customization Available*
