

# FCA STUDENT LEADER PREP

*Spend time in prayer. Ask the Lord to reveal to you what you should speak about when you lead FCA.*

1. Is there something that the Lord seems to be highlighting in your own life? *A story, interaction, sin struggle, experience, thought pattern, question, etc...*
2. Look in the front of your FCA Bible. See if any of those topics relate to that concept. What are they?
3. Read the scriptures attached to those topics. Do one or two stand out to you?
4. Who is writing this? Who are they writing to? Any text background, or historical/cultural context that is important to share?
5. Go back and look through the page numbers offered in the FCA Bible that give supporting questions and thoughts to your topic. Anything you want to steal?
6. Narrow down your scripture to one or two. Go to [Biblehub.com](http://Biblehub.com) and type in those tags. For specific verses that stick out, click the "study" section and read more about historical and cultural context. Below this, questions and topics will also be provided with biblical answers and thoughts. Use these questions and ideas to create your own questions relating to faith and sport! While scripture isn't written TO us it is written FOR us. How can this scripture apply to life/sport?

## SMALL GROUP QUESTION IDEAS:

*This meeting will be discussion heavy. Please try to relate some of the questions to faith & sport. Also, building in vulnerability is a great strategy to aid the groups willingness to respond.*
