

VISITATION NURSING HOME MINISTRY

Our Mission
We strive to offer friendship and compassion to seniors/elderly living in assisted living facilities/nursing homes within our St. Joe's Parish boundaries, shown below.

What We Do
- Visit people who receive minimal visits from family and friends
- Enrich lives by showing residents that someone cares about them
- Cultivate friendships between volunteers and residents, as well as their spirituality

Our Target Audience for Volunteers
- Anyone looking to serve Christ who has the time to consistently meet with elders in these care facilities
- Range of volunteers is broad, from families to single individuals
- Primary goal is for men to visit men and women to visit women
- Young and school-aged children can participate as well, such as accompanying parents/grandparents to the facility or by sending pictures and cards

Our Ministry's Greatest Needs
- Volunteers to regularly spend time with residents
- Individuals who can give hope and a smile to people that need it

How to Get Involved
- Sign up by contacting Joe Anclien; he will give you an overview of the ministry
- Those interested in moving forward will go with a Core Team Member for their first visit to understand the rules and potential regulations of the particular facility
- Once confident, volunteers are asked to visit the facility on a 'regular' schedule
