UKMHA Re-Certification

Dear Valued Business Partners

We are pleased to share an important update with you. As part of our ongoing commitment to safe, responsible and professional operations, Stantone Mechanical Handling Limited has successfully completed the UKMHA Re-Certification Audit.

The UK Material Handling Association (UKMHA) is the trade association that represents all forklift truck manufacturers, suppliers, dealers and end users across the UK's material handling industry. Its accreditation is widely recognised as a mark of quality, safety and good practice within our sector.

Our on-site audit took place on Tuesday 9th June 2026 at our Northampton Office and was carried out by UKMHA Compliance Manager, Lee Medway. The assessment reviewed our compliance with:

- UKMHA Membership Criteria
- UKMHA Code of Practice
- Relevant statutory instruments and regulatory requirements, including the Health and Safety at Work etc. Act 1974

The audit was hosted by Nigel Martin (Managing Director) and Rick Musson, who supported the review and provided insight into our systems, processes and working practices.

Achieving re-certification demonstrates our continued commitment to:

- Safe and responsible engineering practices
- High standards of customer service and operational integrity
- Compliance with industry-led best practice
- Continuous improvement across all areas of our business

We are proud to maintain our UKMHA accreditation and will continue to invest in the people, processes and systems that ensure we deliver a reliable, safe and professional service to all our customers.

Should you require further information or have any questions, please contact us at:

Thank you for your continued support and partnership.

Kind Regards

Nigel Martin
