

HYDRO NLX VARI NLX HYDROVAR NLX TRIFÁSICO

VARI 1 NLX

Aplicaciones

Equipos diseñados para suministro automático de agua a presión en grandes instalaciones, edificios, hoteles, bloques de viviendas, apartamentos, riego por aspersión, etc.

Construcción

Equipos formados por una bombas NLX en inox. AISI 316. Diseño conjunto de todo el equipo listo para el servicio automático.

HYDRO NLX incluye

Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante presostatos.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Opcional colector de aspiración.

VARI NLX incluye

Electrobomba NLX trifásica.
Un variador VARIACHE por bomba con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín 24L incluido.
Opcional cuadro de interconexiones.
Opcional colector de aspiración.
HYDROVAR NLX incluye
Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante variador con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Versión HYDROVAR+ROT: Rotación de la bomba variada.
Opcional colector de aspiración.

Prestaciones con UNA BOMBA VERTICAL TRIFÁSICO

HYDRO NLX VARI NLX HYDROVAR NLX TRIFÁSICO

VARI 2 NLX

Aplicaciones

Equipos diseñados para suministro automático de agua a presión en grandes instalaciones, edificios, hoteles, bloques de viviendas, apartamentos, riego por aspersión, etc.

Construcción

Equipos formados por dos bombas NLX en inox. AISI 316 acopladas en paralelo. Diseño conjunto de todo el equipo listo para el servicio automático.

HYDRO NLX incluye

Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante presostatos.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Opcional colector de aspiración.

VARI NLX incluye

Electrobomba NLX trifásica.
Un variador VARIACHE por bomba con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín 24L incluido.
Opcional cuadro de interconexiones.
Opcional colector de aspiración.
HYDROVAR NLX incluye
Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante variador con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Versión HYDROVAR+ROT: Rotación de la bomba variada.
Opcional colector de aspiración.

HYDRO NLX VARI NLX HYDROVAR NLX TRIFÁSICO

Aplicaciones

Equipos diseñados para suministro automático de agua a presión en grandes instalaciones, edificios, hoteles, bloques de viviendas, apartamentos, riego por aspersión, etc.

Construcción

Equipos formados por tres bombas NLX en inox. AISI 316 acopladas en paralelo. Diseño conjunto de todo el equipo listo para el servicio automático.

HYDRO NLX incluye

Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante presostatos.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Opcional colector de aspiración.

VARI NLX incluye

Electrobomba NLX trifásica.
Un variador VARIACHE por bomba con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín 24L incluido.
Opcional cuadro de interconexiones.
Opcional colector de aspiración.
HYDROVAR NLX incluye
Electrobomba NLX trifásica.
Cuadro eléctrico con control mediante variador con entrada y salida trifásica.
Colector de impulsión.
Una válvula de retención y corte por bomba.
Calderín NO incluido.
Versión HYDROVAR+ROT: Rotación de la bomba variada.
Opcional colector de aspiración.
