## COMPANY OVERVIEW

At Security & Safety Associates of Louisiana, our mission is to empower businesses and organizations by delivering trusted employee screening, drug and alcohol testing, facility audits, and compliance assessments. We are committed to enhancing workplace safety, ensuring regulatory compliance, and supporting business success through accurate, reliable, and client-focused solutions.

## CORE COMPETENCIES

- Employee Screening & Drug Testing
  - Comprehensive pre-employment background checks
  - DOT & Non-DOT drug and alcohol testing (pre-employment, random, post-accident, return-to-duty)
  - Mobile and on-site testing services
  - Human resources consulting for pre-employment processes
  - Professional background certification
- Facility Security Audits & Risk Assessments
  - Physical security threat assessments and vulnerability analysis
  - Industrial, maritime, and critical infrastructure facility audits
  - High-risk facility security assessments
  - US Coast Guard compliance audits and 5-year security plan evaluations
  - Comprehensive site security and emergency response evaluations
- Regulatory Compliance & Federal Standards
  - Compliance audits for OSHA, DOT, ISO 9001, RC 14001, and USCG
  - Maritime Facility Security Officer (MFSO) support
  - Emergency response planning and safety program evaluations
  - Security risk analysis for municipalities and regulated sectors
- Security Consulting & Infrastructure Protection
  - Security consulting for petrochemical, private sector, and critical infrastructure
  - Physical security systems design: access control, intrusion detection, and continuous monitoring
  - Incident prevention and response planning
  - Development of Facility Security Plans (FSP) and threat mitigation strategies

## DIFFERENTIATORS

- Comprehensive, Integrated Services
  - Full-spectrum safety and security services under one roof: screening, testing, compliance, and consulting
- Subject Matter Expertise
  - Specialized knowledge in physical and operational security for high-risk, regulated environments
- Tailored Solutions for Complex Security Needs
  - Custom-designed security strategies that address the unique challenges of each client, ensuring optimal protection across diverse industries and environments.
