Additional Information

- When picking up the race number, an infrastructure contribution* of 20.00 Euros as well as 20.00 Euros for lift use on Friday** must be paid per person.
- Participants must present ID and UCI license (Pro/Elite classes), minors require a signed declaration of consent from their parents or legal guardians.
- Team members (coaches, mechanics, etc.) receive discounted lift transport for a contribution of 15.00 Euros (for the entire event period) - please register at the Race Office.
- Due to the dry summer, there is a water shortage in Todtnau and the springs have almost dried up. Therefore, the city unfortunately did not permit us to offer a bike wash. We ask for your understanding.
- Showers are available at the swimming pool (Poch 9) on Friday and Saturday from 5:30 PM to 8:00 PM.

* The entry fees alone are not sufficient to finance the race. To cover the expenses for using the lift, mountain rescue, German Cycling fees, timing system, prize money and much more, we charge an infrastructure contribution.

** The race was originally planned as a two-day event of the Hot-Trail Series. Due to the designation as the German National Championship, the race had to be extended to three days. Since registrations had already been received, the entry fee could no longer be adjusted. For the additional day, we therefore charge a contribution for a discounted lift ticket. Anyone picking up their race number on Friday evening or Saturday morning does not pay this fee.
