Cares is Different

The Westminster CARES Foundation is not just a traditional senior living fund, it's a statewide impact organization.

- Supports seniors and people with disabilities across Texas
- Funds nonprofits addressing real-world challenges
- Advances person-centered care and quality of life initiatives

Unlike many internally focused communities, CARES extends its reach far beyond Westminster to strengthen the entire aging services network.

Why It Matters

More than just funding—we change how care is delivered. **CARES** is built around a philosophy: **Centered Around Resident Empowered Services**

CARES Means

- Respecting dignity and choice
- Promoting independence
- Enhancing quality of life

We don't just fund services—we invest in better ways to care and help organizations adopt person-centered practices across Texas.

Stronger Together

Partnership in Action

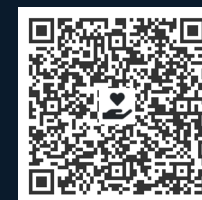

CARES works alongside organizations like the Texas Culture Change Coalition (TXCCC) to expand impact.

- CARES Provides funding and resources
- TXCCC Delivers training, education, and tools

Together, we help bring person-centered care to life in communities across the state.

Your support helps

- Fund carefully vetted nonprofit partners
- Reach under-served and vulnerable populations
- Create lasting change beyond a single community
