June 2026 | Volume 7

Welcome to a momentous June 2026 VASO Global newsletter - bringing you mission critical updates from across our growing ecosystem. This edition unveils our evolving brand, reflecting who we are and where we're heading next. We hope you like our new look and welcome your feedback to hello@vaso.global - thank you for your continued support and encouragement.

Strategic Investment and Government Support Strengthen VASO's Mission

We are delighted to announce VASO Global Limited, has secured over £5 million in funding from [PXN Ventures](#), [Scottish Enterprise](#), [UKRI](#), [SOSE](#) and [Eco Group](#). This reflects strong confidence in the company's innovative recycled glass composite panels for rapid, low-carbon modular homes which address the UK housing crisis, while boosting circular manufacturing.

Vinci Construction UK Innovation Inspiration Event

VASO continues to showcase its role at the forefront of industrialised construction. Our invitation from [Leonard](#) to be part of the [VINCI Construction](#) UK Innovation Inspiration Day highlights growing momentum, with composite technology and rapidly deployable built systems such as Housing, Battery Energy Storage System (BESS) units, public buildings and Temporary Worker Accommodation supporting a resilient, low-carbon built environment.
