newsletter

October 2026 | Volume 11

Throughout October, VASO has been sharing our innovation across Scotland, engaging with housing leaders, industry partners and the wider built environment. These conversations are helping build awareness of how our circular approach and industrialised construction technology can unlock new opportunities for sustainable housing delivery.

VASO Showcases Circular Innovation at the Scottish Construction Summit

Taking circular innovation centre stage, VASO joined Zero Waste Scotland to showcase the future of sustainable housing and industrialised construction solutions.
