March, 2026 | Volume 05

March at VASO is about momentum. We explore composite innovation at JEC World 2026, invited to join partners for Scotland-based roundtable discussions, share a new press feature spotlighting our innovation, and continue our mission to inform – highlighting opportunities to engage with an upcoming event on technology strategy and sector-leading collaborative insight exchange.

Wishing our connections a great Easter break and hope all enjoy the upcoming Spring holiday.

JEC World 26

VASO by Eco was energised to attend JEC World 2026 in Paris earlier this month, connecting with global innovators shaping the future of materials and manufacturing. The event showcased the accelerating pace of advanced composites and manufacturing, reinforcing VASO's ambition to lead the transition to scalable, low-carbon, high-performance industrialised construction solutions.

Irish Green Building Council trade delegation round table.

We welcomed the opportunity to contribute to the Scottish Development International roundtable at Built Environment – Smarter Transformation, bringing together Scottish and Irish partners to accelerate innovation across the built environment. Strong engagement and insightful discussions on regulation, collaboration and innovation highlighted the power of shared learning in scaling low-carbon, manufacturing-led solutions across markets.

Housing and Workforce Questionnaire

The housing crisis reduces affordable living options, making it harder to attract and retain staff. Long commutes and housing stress lower employee satisfaction and productivity. We want to understand if this issue is affecting your organisation, [please scan the QR code to complete our questionnaire.](#)
