May, 2026 | Volume 06

Welcome to the May 2026 VASO newsletter, highlighting progress across our industrialised construction journey. From demonstrator milestones and certification pathways to market engagement, we share key insights from exciting conversations with new partners, strengthening collaboration and accelerating the delivery of scalable, low carbon solutions for public and private sector clients.

Composite Innovation Transforms Build Capacity

VASO's structural composite panel, made from recycled glass, represents a step change in sustainable construction innovation. Designed for precision manufacturing and rapid assembly, it enables an industrialised approach that increases capacity, reduces waste, and supports scalable delivery - helping the built environment respond more effectively to urgent housing and infrastructure challenges.

Stark Building Materials UK Innovation Day

VASO was proud to participate in the first Innovation Day hosted by **Stark Building Materials UK**. It was an honour to share our approach with the wider Stark team and customers, engaging in valuable discussions and meeting fellow built environment innovators driving forward new ideas, collaboration, and scalable solutions future.

FutureBuild 2026

Our recent visit to Futurebuild in London highlighted growing need to move towards industrialised, low carbon construction. Engaging with innovators and sector leaders, we were also invited to the **BE-ST** Connections event at Scotland House - an excellent platform to deepen relationships, spark new partnerships, and showcase VASO's role in driving scalable housing solutions.

A new look. The same commitment.

We're excited to share that Vaso is evolving. This rebrand reflects how the business has grown and where we're heading next, while staying true to the values and quality you already know and trust. The new refreshed look give us a more modern, vibrant identity, with brighter colours and a clearer, more confident presence that better represents the innovation behind Vaso.

Housing and Workforce Questionnaire

The housing crisis reduces affordable living options, making it harder to attract and retain staff. Long commutes and housing stress lower employee satisfaction and productivity.
