BE—ST
Accelerate to Zero Awards

Award Nomination

We are thrilled to have been nominated for the Circular Economy award at the prestigious BE-ST 2025 Accelerate to Zero Awards. The Circular Economy Award honours exceptional efforts in decarbonising the built environment through innovative reuse, resource efficiency, and sustainable design practices.

Vaso by Eco designs, develops and manufactures structural composite panels from recycled glass.

Is recycled glass truly viable in construction? We challenge convention with our composite structural panels made from recycled glass—offering a bold, circular, industrialised solution to housing challenges and sustainability demands.

"Innovation distinguishes between a leader and a follower." — Steve Jobs

Innovation is often sidelined in tackling the UK's housing crisis, yet industrialised construction offers scalable, efficient solutions to deliver quality homes faster and more sustainably

Housing and Workforce Questionnaire

The housing crisis reduces affordable living options, making it harder to attract and retain staff. Long commutes and housing stress lower employee satisfaction and productivity. We want to understand if this issue is affecting your organisation, [please scan the QR code to complete our questionnaire.](#)
