

# RRP Conference in London: 25 Jan

**RESTORING RESPECT (RRP)** has successfully finalized the Digital Multifunctional and Interactive Platform to empower migrant and refugees in their integration journey in the host countries.

During the last month of **RRP** activities partners organized local **multipliers events** to pilot and disseminate the interactive **platform** and a **mobile phone application** within their communities in Cyprus, Greece, Spain and Italy and UK. The overall objective of the UK international event was to begin recovering from the pandemic by promoting in person meetings where our cultures, minds and hearts reunite through shared values of restorative justice. The conference had an overall theme and two sub themes.

This theme was based upon the world experiencing one of the most devastating pandemics, causing multiple consequences for our health, social justice and educational systems.

As we get to grips with COVID19's aftermath and how we can support our communities in the years to come, this international conference brought together some of the world's leaders to provide evidence-based solutions of four key overlapping challenges.

Overall, the event was a great success, specifically because of the educational impact of the workshops and keynote presentations. Workshops are extremely effective in using a short time period to convey complex and vast information.

The consortium of the project involves the following partners:

- **RESTORATIVE JUSTICE FOR ALL** (UK) - Project Coordinator
- **EDRA (GR)** -
- **ALTIUS** (SP)
- **ICSE-Co** (IT)
- **CSI** - (CY)
