- Training course in Madrid.
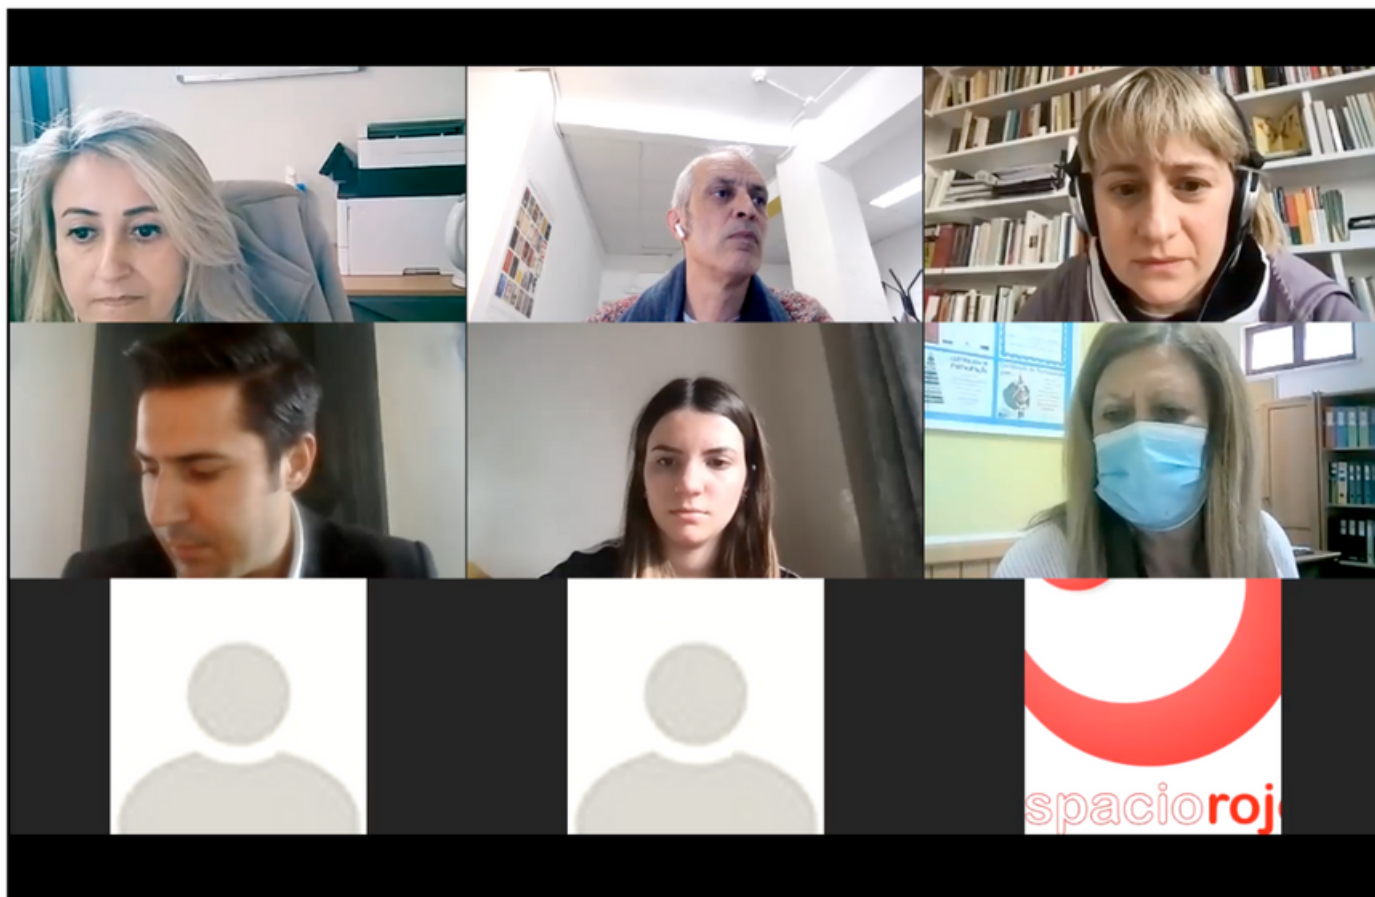

- Meeting in Lisbon, 2022

PILOT IMPLEMENTATION HAS STARTED...

Our partner's consortium has produced all the lesson activity which two of our school partners has started to produce the pilot implementation in their schools (Portugal & Turkey).

The aims of these pilot implementations are to make students realice the local / universal dimension of culture through digital tools and arts. Our students will reveal their feelings, thoughts and perceptions freely and sincerely through artistic activities

We can also announce the launch of our 'Interactive Map with Culture monuments in the frame of our project 'Our Culture' on this **link**.

TRAINING COURSE AND PROJECT MEETING

Last February 2022, we held an online Learning Training and Teaching activity in the frame of 'Our Culture' project.

The aims of these 5 days were to explain different methodologies, experiential learning as well as creative drama and art-based learning in order to produce activities such our coming pilot within partners countries.

We ended up creating a common language and plan. Thus, we increased synergy, cooperation and motivation among partners.

In **June 2022, Lisbon** will bring together the 7 project leaders to held a project meeting to revise and evaluate our progress so far.

'**Our Cultures' (Live with Culture – Live the Culture) | 2020-1-UK01-KA227-SCH-094521)** | brings together 7 cross-sector institutions from 6 different culturally diverse countries (the UK, Spain, Turkey, Portugal, Italy and Greece) including schools, cultural and educational NGOs.

'Our Cultures' focuses on providing art-based learning, creating digital concrete content and making the created content easily accessible in order to live, sustain and promote our common cultural heritage.

The project also aims to develop digital literacy, collaboration and critical thinking skills, through digital data tools (Web 2.0 tools).

You can follow the project on Twitter and Facebook and by following the #ourcultures tag.
