

PROJECT MULTIPLICATION: OUR EVENTS

Final event in UK

On 21th March 2023 **RJ4All** hosted the second International Conference **in the UK**, attended by 24 participants - the first international event took place on 14th February 2023. We presented RDaVR results and impact, the Recommendations for National and EU policymakers, and promoted the community discussion about "dialogue and power sharing).

MULTIPLIER EVENTS

During the last month of the project each partner organized an **EVENT** aimed at:

- disseminating the results of the project and its outputs to key stakeholders
- supporting the project transferability and replication strategy
- engaging potential new stakeholders, funders and users of the platform, programme and tools beyond the life of the project.

Multiplier Event in Ireland

The RDaVR multiplier event **In Ireland** took place in Dublin. The event was hosted by I&F at the Ballyroan Community Centre on Saturday the 25th March 2023.

The participants who came to the multiplier event were professionals working in the field of justice, in prisons, probation services, police and volunteers and mentors who regularly work with youngsters: all of them found the topics presented and discussed during the event to be extremely helpful in their work.

Many also indicated that the event had given them a new perspective on the subject.

Multiplier Event in Italy

The RDaVR multiplier event was held by **Sinergia in Italy** in Bari on 23th March 2023. The event was a day with multiple speeches around the theme of Preventing violent radicalisation, implementing restorative justice practices and good lives model in (re) educational pathways, promoting the active role of the community, cyberbullying and violent radicalization on social media.

The event was a success considering the engagement of the 25 participants and the 35 youth attendees: the feedback showed a very satisfied audience. Participants seem to really like the topics presented and the information presented to the audience will be used in different domains in prevention and (re) education.

Multiplier Event in Romania

The multiplier event organized **in Romania**, was hosted by **CPIP** in Timisoara on 17 March 2023, involving 20 professionals working in the

field of justice, prisons, probation services, police and volunteers who work with young people. The event was an important opportunity to raise awareness of the project's philosophy, to provide professionals with practical solutions to use when faced with specific situations.

Participants expressed valuable feedback, highlighting the significant role of the resources produced, which will definitely improve their knowledge in the field!

Multiplier Event in Spain

The RDaVR multiplier event **in Spain** was held by **Casa Eslava** in the main hall of municipality. Professionals and volunteers working in the criminal justice sectors who attended the event felt that current national and EU policies and practices for the prevention of violent radicalisation were removed from their realities and imposed as top down measures without their buy-in.

hey felt that they had their own views on how existing measures could be supported especially through positive actions that are carried out in partnership with offenders and those at risk.

The evaluation of the event was very positive, according to the recorded feedback answers.

Multiplier Event in Turkey

The RDaVR multiplier event was held **in Turkey** at Bandırma Region Probation Directorate by **Bosev** on 27th March.

The 30 participants were teachers of the probation center, responsible for the training needs of the prisoners, chief of the probation of the directorate, sociologists, psychologist, execution protection officers, officers, spiritual guide, and the director of Directorate.

The event presented various workshop formed with the three outputs, presentations, discussions, case studies, implementation of the outputs in the field.

Regarding the impression of the project, based on participants answers it seems that the information presented to the audience will be used in different domains as being showed in the target group identification.

The main successful results of the events were:

- **Share opinions,**
- **Check real implementation chance of the outputs**
- **Find replication opportunities**
