Introductions

This is a sponsorship proposal, which aims to allow companies and philanthropists to support our charitable institute's objectives. This particular package refers to our international conference titled [**Pandemic no More: Overcoming gender-based violence, exclusion and mental health challenges**](#). The conference will take place on the **24th and 25th January 2022**, and will see over 200 individuals from around the world gathering at the unique location of The Honourable Society of the Middle Temple.

About us

[**The Restorative Justice for All International Institute \(RJ4All\)**](#) is a charitable, user-led NGO with a mission to address poverty and advance community cohesion and human rights.

We redistribute power in a more equal way by delivering social justice and poverty relief projects, educational programmes, intercultural dialogue, internships and high quality volunteering opportunities to the most marginalised groups of society.

We do this by using the power of education, sports and art, as well as the practices and values of restorative justice including power sharing, fairness, equality, dignity and respect.

Since COVID19, we prioritized poverty relief and wellbeing projects, focusing on making a change locally and by prioritizing services for groups who are faced with extra challenges. These local services are provided from the [**RJ4All Rotherhithe Community Centre**](#), which has become a hub of community empowerment and cohesion. It offers a [**food-bank**](#), a community fridge, free sport classes, a community library, COVID19 tests and educational workshops to children, young people and professionals. It is also a safe place for anyone who wants to pop in for a coffee, use our facilities or just chat with our interns, volunteers and team.

About the event

It is about time that we stop hiding behind screens and start meeting real people again! This conference aims to do just that by reuniting cultures, minds and hearts through the values of restorative justice.

The world has experienced one of the most devastating pandemics, causing multiple consequences for our health, social justice and educational systems. As we get to grips with COVID19's aftermath and how we can support our communities in the years to come, this international conference brings together some of the world's leaders to **provide evidence-based solutions on four key overlapping challenges:**

- ***Gender-based violence in the context of young people***
- ***Mental health, restorative art and violence***
- ***Migrants' integration and community cohesion***
- ***Racism, anti-semitism and hate crimes.***

The bridge that connects all these challenges is our proposed evidence based solutions that draw from the values and practices of restorative justice. This two day conference will present the findings from three Erasmus+ projects that we have been running for over two years with several European partners. It will also present cutting-edge research by scholars from across the world in the format of workshops and plenaries. The results of the conference will be published in the form of an e-book by [**RJ4All Publications**](#).
