McClellan joins Behavioral Health team

ADA – The Clinic’s Behavioral Health team has added Trenton McClellan, BHCM II, as its newest medical case manager.

McClellan earned a bachelor’s degree in Human Services and Counseling from East Central University and also holds an associate’s degree in Criminal Justice from Carl Albert State College. He is bringing this unique blend of expertise to his first job in health care.

“I have always had a soft spot for behavioral health,” McClellan said. “I felt like I could help people the best in this field and be a listening ear. Working through my Criminal Justice degree, I realized sometimes all people need is for someone to listen to them.”

McClellan will help handle referrals sent to The Clinic’s Behavioral Health team, conduct consultations, schedule clients, and provide additional support as needed. He will also provide crisis intervention, case management, and behavioral health screenings.

Previously, McClellan worked as a substance abuse tech and child development tech. He also worked for Ki Bois Supportive Services for Veteran Families as a Shallow Subsidy case manager. He said he is excited to join The Clinic’s Behavioral Health staff.

“I feel like I am part of a really great team that’s looking out for the best in their patients,” McClellan said. “The Clinic is developing new ways to give its patients the best care possible and that makes me very proud to be a part of this team.”
