Disposable Hypodermic Standard Syringe - Luer Lock

Metier Medical manufactures a full range of hypodermic syringes to match a variety of clinical needs. Our state-of-the-art manufacturing process assures products of consistently high quality that also meet the most rigorous clinical requirements. Each syringe features a transparent barrel with bold, easy-to-read numbering and a luer lock connection. The smooth-gliding plunger provides seamless and consistent pressure for greater patient comfort.

Features:

- Designed to provide accurate and effective medication dosing
- Smooth-gliding plunger provides consistent pressure for improved comfort
- Transparent barrel with bold, easy-to-read markings for precise measurement
- Can be used with any size needle with a luer lock connection
- Sterile, non-toxic, and non-pyrogenic
- Latex Free
- Available in 1, 3, 5, 10, 20, 30 and 60 mL
