

MEDIA STATEMENT

RELEASED ON 13 JANUARY 2026

EMBARGO: NONE

Class of 2025 Release of Results

The SAOU heartily congratulates the Class of 2025 on their achievement in the National Senior Certificate examinations.

The results which were received today are an acknowledgement of the hard work and dedication of every learner, teacher, school management team and principal in this country.

The SAOU expresses its sincere appreciation to every cog in the education wheel that has diligently functioned in the process to make a success of the 2025 examination cycle. It is a sign of how the education system can function in unison for the greater good of our learners.

The SAOU, however, would like to indicate that even a small breach in the system will negatively affect the validity of the qualification, and therefore supports all efforts to provide systems of accountability in all levels of the examination process.

The NSC Examination is the culmination of a 13-year academic journey. It is therefore necessary that sufficient funding be provided to the education sector to ensure that the development of the foundational skills of reading, writing and mathematics are well developed and supported throughout the system.

The SAOU wishes every learner who received their results all the best on their further academic journey and congratulates them on their achievements.
