

HFCS Hazard & Pest Policy

Happy Family Cleaning Solutions (HFCS) is committed to providing safe, efficient, and professional non-hazardous junk removal services. For the safety of our team and compliance with local laws, we follow strict guidelines regarding hazardous materials, pests, and waste.

What We CANNOT Handle:

- Human or animal waste (solid or liquid)
- Carcasses or remains
- Severe pest infestations (cockroaches, rats, bedbugs, fleas)
- Items contaminated with biohazards (blood, vomit, etc.)

Light Infestations:

If only minor pest activity is present (few droppings or insects), we may proceed using protective gear and sealing items in heavy-duty contractor bags.

Severe Infestations or Biohazards:

If active pests or waste are discovered, we will stop work immediately and refer you to a licensed pest control or biohazard cleanup company. Once treated, HFCS will be happy to return to complete your junk removal.

Customer Acknowledgment:

[] I confirm my junk does not contain hazardous waste, active pest infestations, or human/animal waste.

Referrals:

We partner with trusted pest control and biohazard cleanup services to ensure you get fast, professional help when needed. Ask us for our recommended providers.
