GENERAL PARISH SESSION #1:

From August 2025 through December 2025 our parish, along with number of others, will be participating in a Diocesan facilitated process, known as Pastoral Planning. This is an extremely important undertaking designed to help us meet the future sacramental and pastoral needs of our communities.

Inclusion and transparency are key to a faithful and effective process. The recent Disciple Maker Index Survey was one way to solicit parishioners input on attitudes, beliefs, satisfaction, and participation. General Parish Sessions are another important opportunity for members of the community to understand the considerations for pastoral planning and share any concerns they have that may not have been considered.

TECHNOLOGY ALTERNATIVES FOR YOUR CHILDREN

ALTERNATIVES:

Since many problems associated with youth and smartphones are due to access to an internet browser and app store, other options without these features are available. Below are some alternatives to smartphones. The following descriptions are provided at waituntil8th.org.

TECHNOLOGY EXAMPLES

GIZMO WATCH

The Gizmo Watch provides two-way voice calling and messaging with up to 10 trusted contacts of your choice. Parents can check the location of the Gizmo Watch from their own smartphone, set GPS boundaries, and receive automated alerts when a child exceeds the boundaries.

BARK WATCH

For kids who are starting to spend more time outside the home but who aren't quite ready for the responsibility of a phone yet, the Bark Watch is a great choice. It gives parents peace of mind with GPS tracking and messaging without games, browsers, or social media, so kids can stay connected more safely without distractions.

TICKTALK WATCH

The TickTalk Watch features voice and video calling, text messaging, location tracking, free streaming music, parental controls and a camera. With no internet, games, or social media, TickTalk 4 allows your family to stay connected without sacrificing peace of mind.

GABB PHONE

Gabb Wireless has designed the Gabb phone without the internet or an app store. Kids can call, text and access a basic suite of essentials limited to a calculator, calendar, and alarm. The phone does not have games or social media. The phone does have a camera with optional picture messaging.

PINWHEEL

Pinwheel created a unique operating system that lets kids be kids. Pinwheel supports outdoor play, book reading, and spending time with friends. The Pinwheel phone excludes everything that leads to poor quality screen time, including web browsers and social media platforms. In addition, there is not an App Store on the phone accessible to children.

LIGHT PHONE 2

The Light Phone 2 does not have feeds, social media, advertisements, news or email. The phone simply includes calling, texting, music, an alarm clock, and a calendar.

WISEPHONE

Wisephone II is a phone that is safe for kids and perfect for parents who want to be more intentional with their time. It has no internet browser, no streaming, no social media, no apps, and no ads. The tools on the phone include calls, texts, calculator, clock, notes, music, maps, and camera.

ALTERNATIVAS TECNOLÓGICAS PARA SUS HIJOS

ALTERNATIVAS:

Ya que muchos de los problemas asociados con los jóvenes y los smartphones se deben al acceso a un navegador de Internet y a una tienda de aplicaciones, existen otras opciones que no cuentan con estas funciones. A continuación se presentan algunas alternativas a los smartphones. Las siguientes descripciones se proporcionan en waituntil8th.org.

EJEMPLOS DE TECNOLOGÍA

GIZMO WATCH

El Gizmo Watch ofrece llamadas de voz bidireccionales y mensajes con hasta 10 contactos de confianza de su elección. Los padres pueden comprobar la ubicación del Gizmo Watch desde su propio smartphone, establecer límites GPS y recibir alertas automáticas cuando un niño sobrepasa dichos límites.

BARK WATCH

Para los niños que empiezan a pasar más tiempo fuera de casa, pero que aún no están preparados para la responsabilidad de tener un teléfono, el Bark Watch es una excelente opción. Ofrece tranquilidad a los padres con seguimiento GPS y mensajería sin juegos, navegadores ni redes sociales, para que los niños puedan estar conectados de forma más segura y sin distracciones.

TICKTALK WATCH

El reloj TickTalk ofrece llamadas de voz y video, mensajes de texto, seguimiento de la ubicación, música en streaming gratuita, controles parentales y una cámara. Sin Internet, juegos ni redes sociales, TickTalk 4 permite a tu familia estar conectada sin sacrificar la tranquilidad.

GABB PHONE

Gabb Wireless ha diseñado el teléfono Gabb sin Internet ni tienda de aplicaciones. Los niños pueden llamar, enviar mensajes de texto y acceder a un conjunto básico de funciones esenciales que se limitan a una calculadora, un calendario y una alarma. El teléfono no tiene juegos ni redes sociales. El teléfono tiene una cámara con mensajería de imágenes opcional.

PINWHEEL

Pinwheel ha creado un sistema operativo único que permite a los niños ser niños. Pinwheel fomenta el juego al aire libre, la lectura de libros y pasar tiempo con los amigos. El teléfono Pinwheel excluye todo lo que conduce a un tiempo de pantalla de mala calidad, incluidos los navegadores web y las plataformas de redes sociales. Además, no hay una tienda de aplicaciones en el teléfono accesible para los niños.

LIGHT PHONE 2

El Light Phone 2 no tiene feeds, redes sociales, anuncios, noticias ni correo electrónico. El teléfono solo incluye llamadas, mensajes de texto, música, un despertador y un calendario.

WISEPHONE

Wisephone II es un teléfono seguro para los niños y perfecto para los padres que quieren ser más conscientes de su tiempo. No tiene navegador de Internet, streaming, redes sociales, aplicaciones ni anuncios. Las herramientas del teléfono incluyen llamadas, mensajes de texto, calculadora, reloj, notas, música, mapas y cámara.

Ambassadors For Life Training

October 18th, 2025

**Join us in building a brighter future, where informed voices
can champion the value of life.**

We recognize that many individuals either reject or feel indifferent towards the pro-life perspective, often influenced by cultural norms or simply because they haven't been exposed to persuasive pro-life viewpoint. We believe it is crucial for young people to have meaningful opportunities to engage with life issues that go beyond the soundbites and sensationalism prevalent on social media and other platforms.

The Ambassadors for Life Training program is designed to empower high school and college aged students to become passionate advocates for LIFE. This immersive, one-day experience is dedicated to dispelling common myths, offering fact-based education on critical life issues, and fostering a compassionate community of understanding among peers.

Where: Trinity Hall, at St. Pats Campus in Chesterton, Indiana

When: Oct 18th Time: 9 am-4 pm

Continental breakfast and lunch will be served

Cost is \$20 per student (those who need a scholarship to attend, please ask)
