BUSHBIKE

Leasing how does it work?

We offer the BushBike on a minimum 12-month lease to provide security companies with a low-capex, flexible fleet solution. The structure is simple and transparent:

- Minimum lease term: 12 months
- Two options available:
 - DIY lease (excl. service): client handles maintenance internally
 - Full-service lease (incl. service): maintenance and technical support included
- Fixed monthly fee for predictable budgeting

Ideal for fleet testing, contract-based deployments, and scaling without upfront investment.
