

January 6th Again (1/6/24)

January 6th is observed every year as a significant day on the Christian calendar. The day is also known as "Three Kings Day," "Little Christmas," or "Epiphany." The eve of the date is known as "Twelfth Night," falling 12 days after Christmas Eve. It often goes unnoticed, but for the past three years, January 6th has become the name of a news event that we hear about often. But the music on today's program focuses more on peace on earth, joy to the world, and of course love. Always love songs:
