

PAY-ON-FOOT - SLIMLINE AUTOMATIC PAY STATION

INCORPORATING LPR TECHNOLOGY.

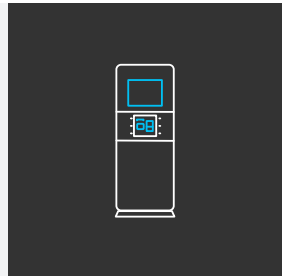

Provides casual users an unmanned parking payment service prior to exit.

Australian standards require controls to be between 1220 and 230mm,

With full integration with smart License plate recognition technology, our pay-on-foot slimline pay stations can be configured for ticketed or ticketless parking. They offer a range of payment options to better cater to customer needs, driving payment compliance and generating revenue.

Driver Assistance:

- In built 2 way hands free audio intercom
- Push button for audio Help.

Has a provision for an Intercom Module to enable communication by drivers with the local handset.

CAN BE CONFIGURED TO SUPPORT DIFFERENT TICKETING SOLUTIONS:

TICKETING SOLUTION

Enables controlled Free Parking for periods of time: 1 - 2 hours to genuine customers. Any re-entries by same vehicle registration within the free period of parking are flagged and a charge can be applied after the accumulated free period is used. Thereby stopping the abuse of all day parking without consequences.

CONFIGURATIONS TICKETING SOLUTIONS:

- Low cost thermal barcode disposable paper tickets
- Durable Fan Folded tickets,
- Ticketless systems using licence plate recognition and touch screen interface.

TICKETLESS SOLUTION

Vehicle registration numbers are captured on entry via LPR cameras which are transmitted to the CDS server.

Motorist can now pay either at the preferred Pay Station kiosk prior to leaving, using credit card, pay wave or mobile Parki App using the CDS touch screen or alternatively when leaving the carpark at the exit gate.

Permanent registered users now have the convenience of drive-in/drive-out without having to stop at the exit station on leaving with automatic activation of boom gate.

Casual users can either pay at the APS or at the exit station.

If payment is made at the APS the boom gate activates automatically for the casual user on exit.

PAYMENT SOLUTIONS:

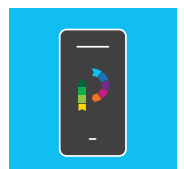

- Accepts multiple payment methods: credit card, pay-wave and Parki App
- Fast unmanned payment for casual car park users.
- Issues a digital receipt via SMS

TOUCH

SCREEN TO PAY FOR PARKING

To extend your stay, scan the barcode on your valid RECEIPT.

TOUCH SCREEN

The touch screen provides the instructions to guide the customer through the payment process.

When used with the PARKi Ticketless LPR Solution the screen allows the customer to easily select the LPR image of their car on entry to confirm the amount of time they have used the carpark. They are then guided through the payment process. Upon exit the LPR recognises the customers licence plate and the boomgate opens automatically.
