

CITYWATCH SECURITY

PROTECTING WHAT MATTERS
LOGISTICS

BUILT FOR AUSTRALIAN FREIGHT

HIGH STAKES PROTECTION

For logistics hubs, tighter perimeter security, smarter surveillance, and fast escalation are no longer optional—they're the bare minimum for protecting fleets and personnel.

In 2024 Australia the ABS recorded 65,603 motor-vehicle thefts. That statistic includes trucks and commercial fleets. This highlights a essential need more than ever for secure yards, gated access, LPR/CCTV and verified alarm response at logistics sites.

PREVENTION MEETS PRODUCTIVITY

VISIBLE COMPLIANCE

Robust gatehouse controls, LPR/CCTV analytics and verified alarm response turn high-exposure sites into controlled environments that protect assets and keep schedules on track.

From first light to last truck out, we verify who's on site, what's moving, and where it's going - no surprises, no delays.

CITYWATCH'S DEDICATED LOGISTICS SECURITY

TRUSTED BY LOGISTICS HUBS ACROSS THE NATION TO KEEP FLEETS, GOODS AND YARDS SAFE

KPI-DRIVEN CONFIDENCE

Our performance is visible: we report patrol compliance, alarm-to-action times, seal-check rates, and incident close-outs weekly so you can see risks trending down.

MOST YARDS GO QUIET, WE DON'T

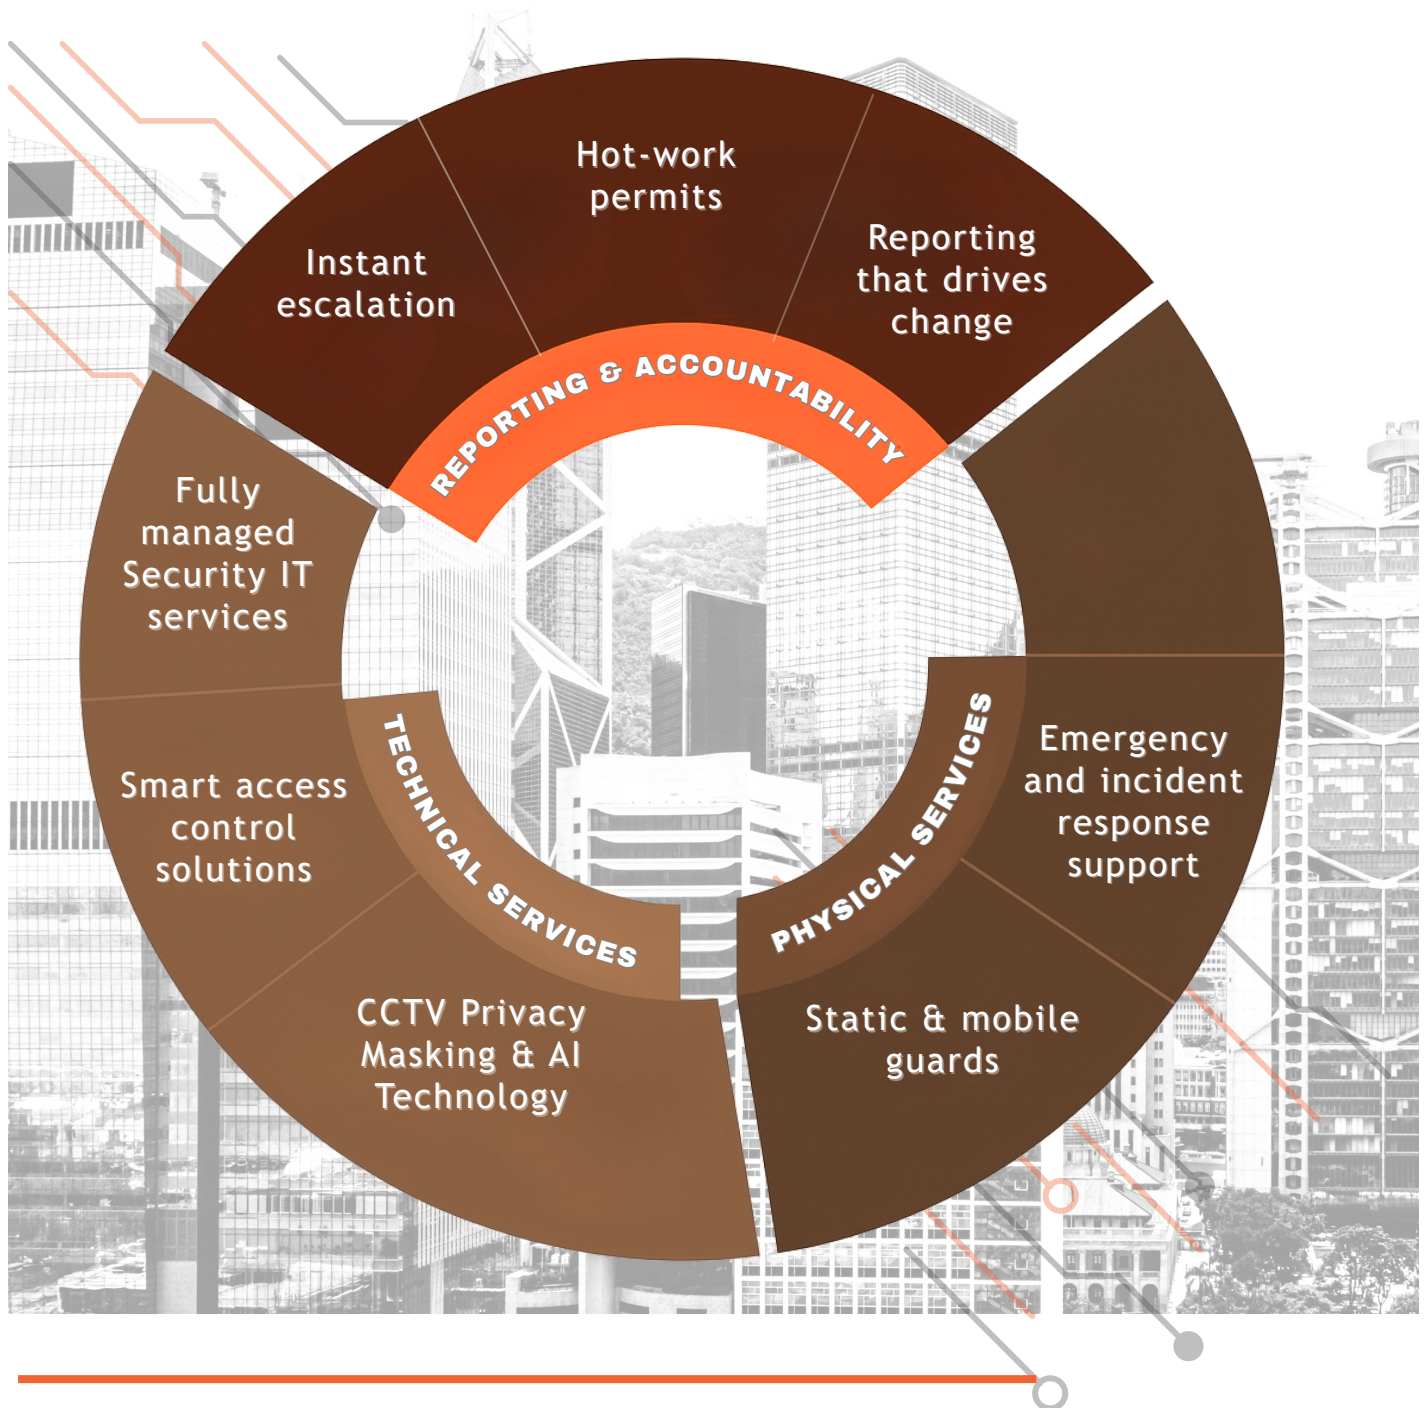

Fuel siphoning, battery and catalytic-converter theft can quietly drain margins. Lighting, surveillance, remote monitoring, alarm verification and targeted 24/7 patrols keep fences, fuel bays and high-value cages secure through the night.

KEEP FREIGHT MOVING, NOT WAITING

Every minute a trailer sits unsecured is a minute your schedule slips. Layered controls, gatehouse checks, LPR/CCTV analytics, and verified alarm response are all custom-created to keep assets safe without slowing turnarounds.
