Sullivan es el primer toro Jersey de raza holandesa probado por K.I. SAMEN. Mts. Ter Mors-Bruggert se ha centrado en gran medida en los Jersey durante muchos años e importó Jerseys de Dinamarca hace muchos años. Posteriormente, siguieron una estrategia de crianza consistente utilizando los mejores toros disponibles. El padre de Sullivan es un nombre muy reconocido, que combina una producción fantástica con un excelente recuento de células somáticas.

Sullivan is the first Dutch-bred Jersey bull to be tested by K.I. SAMEN. Mts. Ter Mors-Bruggert has focussed heavily on Jerseys for many years and imported Jerseys from Denmark many years ago. They then followed a consistent breeding strategy using the best available bulls. Sullivan's sire is a very well-known top name, who combines fantastic production with a very good somatic cell count.

Su madre es una vaca lechera excepcional, ideal para cualquier explotación. Produce abundante leche con facilidad y combina esta característica con una excelente fertilidad. Destaca por sus patas superiores y sus garras firmes, junto con una ubre ideal para sistemas de ordeño robotizado

His dam is a super dairy cow, suitable for any farm. She produces copious volumes of milk with ease and combines this trait with very good fertility. Since the milking robot was introduced to the farm in December 2017, the production of Missy 9157 has risen again. She, and her daughters, all perform well with the robot. She stands out for her superior legs and hard claws, partnered with an udder that is ideal for robot milking systems.

Sullivan is a very good bull, who also offers A2/A2. Choosing Sullivan is not a leap of faith, but a solid and reliable choice. Good luck with this top bull from a magnificent family!

Sullivan es un excelente toro, que también ofrece A2/A2. Elegir a Sullivan no es una decisión arriesgada, sino una decisión sólida y confiable.

¡Mucha suerte con este excelente toro de una magnífica familia!
