

Alger Meekma

- + Strong wide cows
- + Excellent feet & legs
- + A2/A2
- + Good somatic cell count

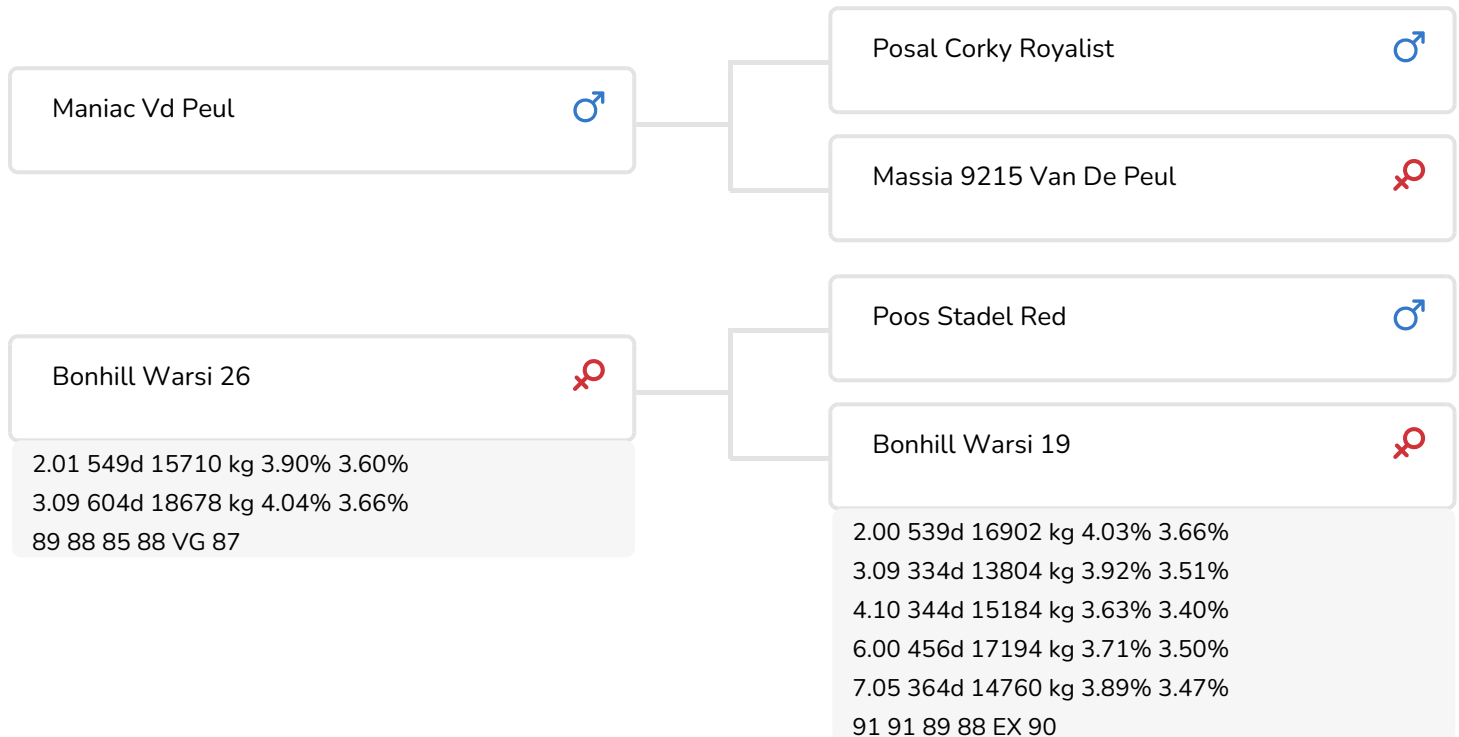

Els Korsten

Bonhill Warsi 19 (EX 90)
(granddam of Kratos)

BULL INFORMATION

Name	Bonhill Kratos	Date of birth	2012-03-10
Herdbook number	NL 883790814	Gestation length	270
A.I.-code	36917	Kappa Casein	AB
aAa code	345126	Beta Casein	A2/A2
colour	RB	Cow family	Warsi
Breed	100% HF	Straw colour	Bruin

The well developed and strongly build bull Bonhill Kratos (Maniac x Classic x Lightning rc) descends from the Warsi cow family which K.I. SAMEN has used more often. This Warsi-line is known for their good conformation and their good milking ability combined with a narrow fat-protein ratio.

Kratos is supported via his paternal line with above average figures for production ability and very good udder and feet & legs traits.

Maniac, sire of Kratos, has very good figures for udder and even a better, if not the best, score for feet & legs. With this last trait Maniac belongs to the absolute top of his breed. The daughters of this Royalist son steadily start their milk productions and become better and better, as well during their lactation (persistency) as well over the number of lactations (late maturing). Combined with their healthy udders (low cell counts) Maniac's breeding pattern results into cows which will last a long time (high longevity).

Breeding bulls Mecanic rc and Salinas are two K.I. SAMEN bulls we have tested before. They descend from the same dam line as Kratos. Both bulls are sons of Warsi 19 (EX 90), grand dam of Kratos. This impressive Lightning daughter is supported by 4 generations of VG cows (based on a cow family originated in the USA). Warsi 19...
