

CAREERS IN AGRICULTURE

Instructions & Lesson

teacher copy

Lesson:

- There's an ag career for almost anyone – whether a student is interested in education, mathematics, business, trade, working with animals, sustainability, or all of the above.
- Have students explore <https://www.agcareers.com/career-profiles/> or another website, company, or resource they are interested in.
- They'll fill out the corresponding worksheet on their skills, interests, and a current job posting they find in the field.
 - They'll focus on 3 jobs and weigh the pros and cons of each
 - Then, they'll pick the job that seems like the best fit for them
 - Afterwards, students can share out their job title and their favorite thing they learned about it. This way, students can learn from one another about possible careers in agriculture.

Candidates

Employers

you would like to read more about. Each career profile contains an overview, job responsibilities, required education, recommended high school courses, potential employers, job outlook, and professional organizations to join. Plus, there is a link to current career opportunities on AgCareers.com related to that career. Contact marketing@agcareers.com with questions or inquiries about the AgCareers Career Profiles.
