ADVANCING MARKETS FOR PRODUCERS PARTNERSHIP

WHAT IS THIS GRANT PROGRAM?

The Advancing U.S. Pork Sustainability and Market Value grant program provides technical assistance and financial incentives to commodity crop and livestock producers to steward their land. Producers can receive funding and guidance to adopt practices such as cover cropping, temporary fencing, tillage management, manure management, edge-of-field buffers, LED lighting and heat mats through 2028.

WHAT PRACTICES ARE ELIGIBLE FOR FUNDING?

COVER CROPS

\$40 per acre annually (\$50 for historically underserved producers). 1-6,000 acres eligible; authorization required for more. 3 or more species required.

LIVESTOCK INTEGRATION

60% coverage for temporary fencing and water structures to graze cover crops.

NO-TILL & STRIP-TILL

\$10 per acre on new acres; \$6 for established no-till.

EDGE-OF-FIELD/PERENNIAL GRASS BUFFERS

\$500 per acre (\$600 for historically underserved producers); 50-150 ft width required.

SWINE MANURE MANAGEMENT

*Pumping: \$0.0125 per gallon (up to \$12,500).
Application: \$6 per acre for manure-applied land (max. 200 acres/year).*

IN-BARN LED LIGHTING

80% reimbursement for new LED bulbs in swine barns. Conversion to LED lighting system support dependent on funding.

HEAT MAT REBATE

Up to \$15,000 rebate.
