

ATTRIBUTES REVIEW: GOD, JESUS, AND THE HOLY SPIRIT

The students will be learning an attribute, or characteristic, of God each lesson of the 3rd grade curriculum. In order to help them remember these important attributes, this document can be printed and the attributes can be cut out individually. These attributes can be hung directly on the wall of the classroom, or a couple posters can be hung on the wall and the attributes added to the posters. First, hang the attribute categories up (each person of God), leaving room for the attributes that are connected to that category (Attributes of God-25, Attributes of Jesus-18, Attributes of the Holy Spirit-7). Each week as an attribute is taught, add the lesson's attribute under the appropriate person of God. Review each attribute list together with the students. Our goal is for the students to always remember who God truly is so they can learn to trust Him!
