Policy Statement

This policy applies to all The Window Repair Company activities in Ireland. The policy affects employees, suppliers, partners, and local communities. The policy affects employees, customers, suppliers, and local communities. We are committed to helping our clients and delivering high-quality glass products along with environmentally responsible solutions.

Environmental Issues

The Window Repair Company is committed to carrying out its work in a way that reduces negative environmental impacts and maximises positive contributions to protect the environment.

Our key commitments include:

- Reducing greenhouse gas emissions by improving vehicle efficiency, planning team routes more effectively, promoting eco-friendly driving habits, using low-emission materials and technologies, and encouraging sustainable travel.
- Preventing pollution by managing waste responsibly, promoting recycling, and reducing emissions where possible.
- Conserving resources by using water efficiently and ensuring equipment is used sustainably, reused where possible, and recycled at the end of its life.
- Working with suppliers and subcontractors who share our environmental values and operate in an eco-responsible manner.

Objectives and Plans

Reducing Greenhouse Gas Emissions and Energy Management

- The Window Repair Company is committed to reducing greenhouse gas (GHG) emissions across all operations.

The Window Repair Company - Internal This document is uncontrolled when printed	Reference:	POL-002	Version:	1.0
	Created By:	Adele Morrough	Page No:	1 of 3

Targets include:

- Improving energy efficiency across all vehicles and operations.
- Reviewing our energy and emissions performance regularly to identify improvement opportunities.

Pollution Prevention

- The Window Repair Company takes active steps to reduce waste, limit air pollution, and manage hazardous materials responsibly. Key actions include:
- Using environmentally friendly, non-toxic products wherever possible.
- Ensuring the safe storage, handling, and disposal of any hazardous materials.
- Monitoring and reporting on hazardous material management to maintain safety and compliance.

Preserving Resources

- We aim to use water and other resources efficiently, implementing measures to reduce consumption wherever possible. Key actions include:
- Identifying areas of high-water usage and applying water-saving technologies and practices.
- Tracking progress in resource reduction and reporting results to management and staff.

Involving the Supply Chain

We work closely with suppliers who share our environmental commitment.

This includes:

- Providing clear guidance and encouraging suppliers to participate in environmental awareness initiatives or training.
- Considering environmental criteria when selecting suppliers to strengthen sustainability across our operations.

Implementation and Responsibilities

The Window Repair Company provides the resources, guidance, and support needed to achieve these environmental goals. Responsibilities include:

The Window Repair Company - Internal This document is uncontrolled when printed	Reference:	POL-002	Version:	1.0
	Created By:	Adele Morrough	Page No:	2 of 3

- Making this policy available to all employees, subcontractors, suppliers, customers, and stakeholders.
- Ensuring everyone within the company takes responsibility for environmental issues in their area, with support and advice from the management team.
- Reviewing the policy regularly to ensure it remains aligned with current legislation and the evolving needs of the company and environment.

This Policy is communicated to all employees, suppliers and sub-contractors and is made available to interested parties.
