NOTES:

The **RED** and **BLACK** DC connectors are very similar in size, being 2.5mm and 2.1mm respectively. If in doubt, use the smallest connector size first e.g. **RED** to **BLACK** cable, and try the **RED** to **RED** option if it doesn't fit the selected device.

This list is constantly updated as new devices are released. If the device requiring backup power support is not listed then please contact us for support at support@constantvigil.com.

Please confirm cable selections to new devices with our support team so that we may update our list and make things easier for all our customers. Your support is very much appreciated.
