

Komeen[®] Descend

EPA Reg. No. 67690-25

FIFRA 2(ee) Recommendation
For Distribution and Use in New York Only

For the control of starry stonewort in NY lakes (Chautauqua Lake)

DIRECTIONS FOR USE

- It is a violation of federal law to use this product in a manner inconsistent with its labeling.
- This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or approved by the EPA.
- Read the label affixed to the container for Komeen[®] Descend before applying. Follow all precautionary statements and applicable use directions except as specified below.
- This product bulletin should be in the possession of the user at the time of application of the product.

Apply Komeen Descend at a rate of 0.5 to 1 ppm (1.7–3.3 gal / acre-ft).

Refer to product label for specific guidance on general application restrictions and pre-treatment considerations, surface spray, injection or boat boom applications, maximum annual application rates, and other treatment factors and considerations. Contact a SePRO Technical Specialist for specific guidance.
