Publicly-Issued Alts

Track every interval fund, BDC, non-traded REIT, and more.

At SQX, publicly-issued alternative investments data is our speciality.

- **Daily Updates:** Our universe refreshes daily as new EDGAR filings are processed. Additions, removals, and reclassifications are tracked with full audit trail.
- **Vast Universe:** SQX offers data on over 1,000 publicly-issued alts every day.
- **Enhanced Classification:** LLM-assisted filtering removes false positives that rules-based systems miss.
- **Full Transparency:** We offer full documentation of inclusion/exclusion criteria, filter stages, and classification logic.
- **Customers First:** We customize solutions to your needs. Our responsive team resolves most issues within 24 hours.
- **Flexible Delivery:** Our coverage is available via API, flat file export, or data feed integration. Custom delivery formats available on request.
