

Come Along on Our Community Merchant Tour

This is the fourth in a series of articles about Evansville citizens and merchants!

The Evansville Area Chamber of Commerce & Tourism and the Evansville Review are partnering to produce a new monthly business column - it's a chance to learn something unique about your local business owner! Shopping and eating and seeking entertainment locally truly helps build a stronger community, so please consider the following businesses and organizations the next time you make your purchases! This will be an ongoing feature in the Review. If you have interest in being featured in our future articles, contact the Chamber Director at 882.5131.

Formecology LLC - 210 Cemetery Rd. - John Gishnock, owner.

Formecology, LLC, is your local landscape design/build/care firm with a big mission: create beautiful, stress-free, eco-friendly outdoor spaces suitable for any site. This mission is what makes us different - we don't limit ourselves to simply beautifying the landscape!! Whether you have a residential or a commercial setting, we will listen to your needs and create the landscape solution that is right for you.

When you work with Formecology, you can go beyond the usual garden variety. Our name truly describes the passion we have for our work: Formecology is born from the idea of combining art (form) with nature (ecology). Our work is rooted in combining the most beautiful native plants, natural Wisconsin stone, recycled materials, drought-tolerant or no-mow turfgrasses, and rainwater wise features. Inspired by nature, and backed by training and experience, our landscapes are artistic, appealing, and specific to the site and your needs.

Outdoor living spaces designed, installed and maintained by Formecology are exquisite, economical, and environmentally beneficial. We'd love to visit with you and help create your dream landscape - be sure to ask about our organic-based lawn care services too!

Contact John J. Gishnock III, ecological designer, at 882-6656 or john.g@formecology.com
