Overview

In today's transitional market, there will be listings that have multiple offers and listings with little to no activity. Listings with minimal activity need a different approach in order to sell.

If a listing is properly priced and not receiving any offers, it's clear that the market is rejecting the price and wanting to pay below appraised value. Why is this?

Because in some cases, listings can appraise for a higher value than a buyer is willing to pay, due to appraisals using historic sales data from 6-12 months ago. In this case, it makes sense to have the listing pre-appraised, understand the value, and discuss with the seller how much they would be willing to sell below appraised value, which creates a seller credit that can be offered to incentivize a buyer.

The vast majority of buyers would rather have a seller credit to offset closing costs, lower their interest rate, or both, instead of a price reduction.

Welcome to the Ultimate Listing Tool which allows agents to order a pre-appraisal at a reduced cost to better understand market value and credits. Contact The AMG Team for details!
